USER MANUAL · FOR ADMINISTRATORS

Admin User Manual

Complete Guide to Marketplace Administration

VERSION	DATE	AUDIENCE
1.0	October 2026	For Administrators

Screens show demo data. Some features are marked “Planned Feature” — they are not available yet. Legal texts shown are drafts that must be reviewed by a qualified lawyer before production use.

🔄 **Future updates:** When the app gets new features or changes, they will be added to this user manual. Always use the latest version — check the version number and date.

Table of Contents

Each chapter explains one page: what it is, why it is used, what you can do, step-by-step instructions, what happens next, status meanings, important points, common mistakes and where to get help.

🔢 How to read the screenshots

Orange numbered circles on a screen point to a button, field or area. The list next to or below the picture explains each number. A green “📷” label means the picture is a real screen from the app with demo data. A yellow “Illustrative Screen — Final UI may vary.” label means the screen is a mock-up of a Planned Feature.

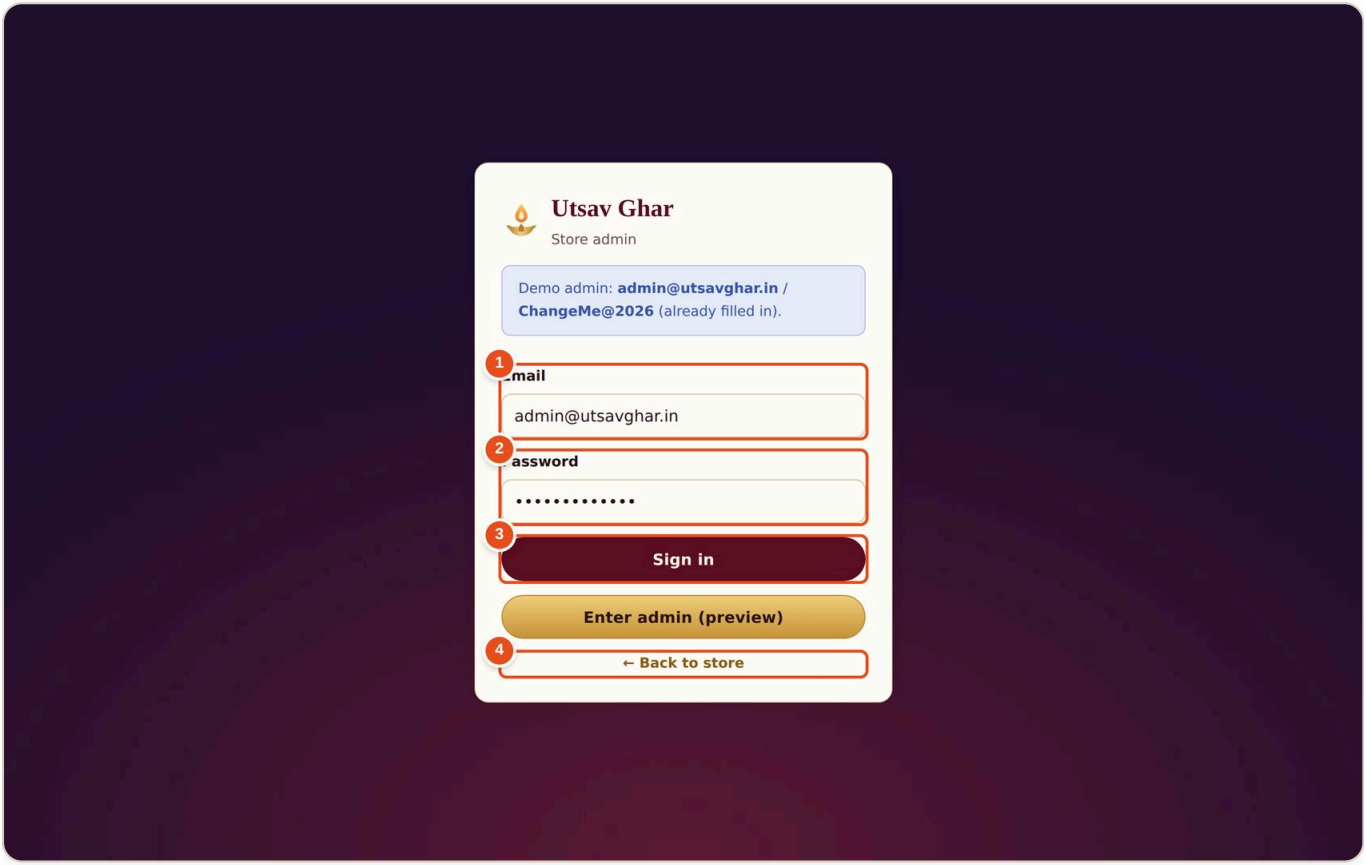

1 Admin Login

📄 What is this page?

The "Store admin" sign-in page at /admin.

🎯 Why are we using this page?

The admin panel controls money, customer data and legal records, so only authorised staff may enter.

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. Email
2. Password
3. Sign in
4. ← Back to store

🪜 Step-by-step

1. Open /admin (or footer → "🔐 Admin login").
2. Enter Email and Password → "Sign in".
3. If two-step login is on, enter the 6-digit code from your authenticator app (or a backup code) → "Verify".
4. First sign-in: set your own password ("Set your own password to continue").

📬 What happens after I submit?

You see the Dashboard. Sessions last 12 hours.

⚠️ Important

- Admin passwords: 10+ characters with letters and a number.
- 5 wrong attempts lock sign-in for 15 minutes; more attempts lock longer.
- The admin panel can be limited to allowed networks (IP allow-list).

❌ Common mistakes

✗ Sharing one admin login between staff

✗ Losing the authenticator phone without saving backup codes

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

2 Admin Dashboard

📄 What is this page?

The first admin screen: a summary of the store.

🎯 Why are we using this page?

To see in one minute what needs action today.

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. Tiles: total sales, gross profit, today's sales, orders, pending payments, products, low stock, active offers
2. Needs attention: payments to verify, orders to ship, reviews, low stock
3. Menu of all admin pages

✅ What can I do here?

- ✓ Total sales, gross profit, today's sales
- ✓ Orders to pack & ship, pending payments
- ✓ Low stock, active offers, reviews to moderate
- ✓ Sales of the last 14 days, recent orders, top products

⚠️ Important

- Customers, dealers waiting for verification, legal acceptance and policy alerts are on their own pages: Customers, Dealer verification and Legal & Compliance → Overview.

🛠️ PLANNED FEATURE

- Combined dashboard tiles for total customers, total dealers, pending dealer verification, pending returns, legal acceptance and policy alerts are a Planned Feature.

This is not available in the app yet. Until it is, use the steps given here.

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

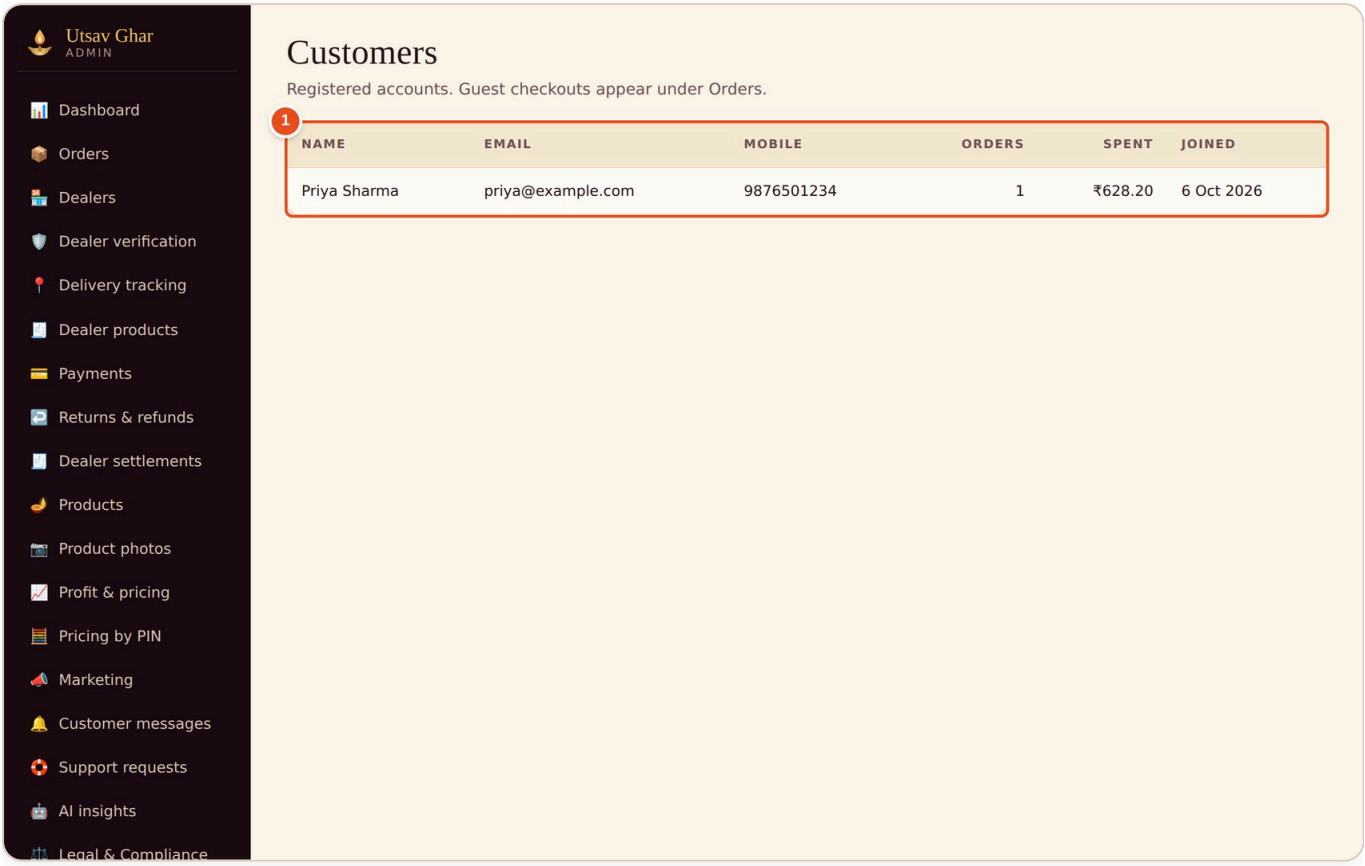

3 Customer Management

📄 What is this page?

"Customers" — the list of registered accounts.

🎯 Why are we using this page?

To know who your customers are and how much they buy.

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. Name, email, mobile, orders, spent, joined

⚠️ Important

- Guest checkouts appear under Orders, not here.
- Customer legal acceptance is in Legal & Compliance → Acceptance.
- Treat customer data as confidential (Privacy Policy).

🛠️ PLANNED FEATURE

- Customer search, detail page, export and actions (block, reset password) are Planned Features.

This is not available in the app yet. Until it is, use the steps given here.

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

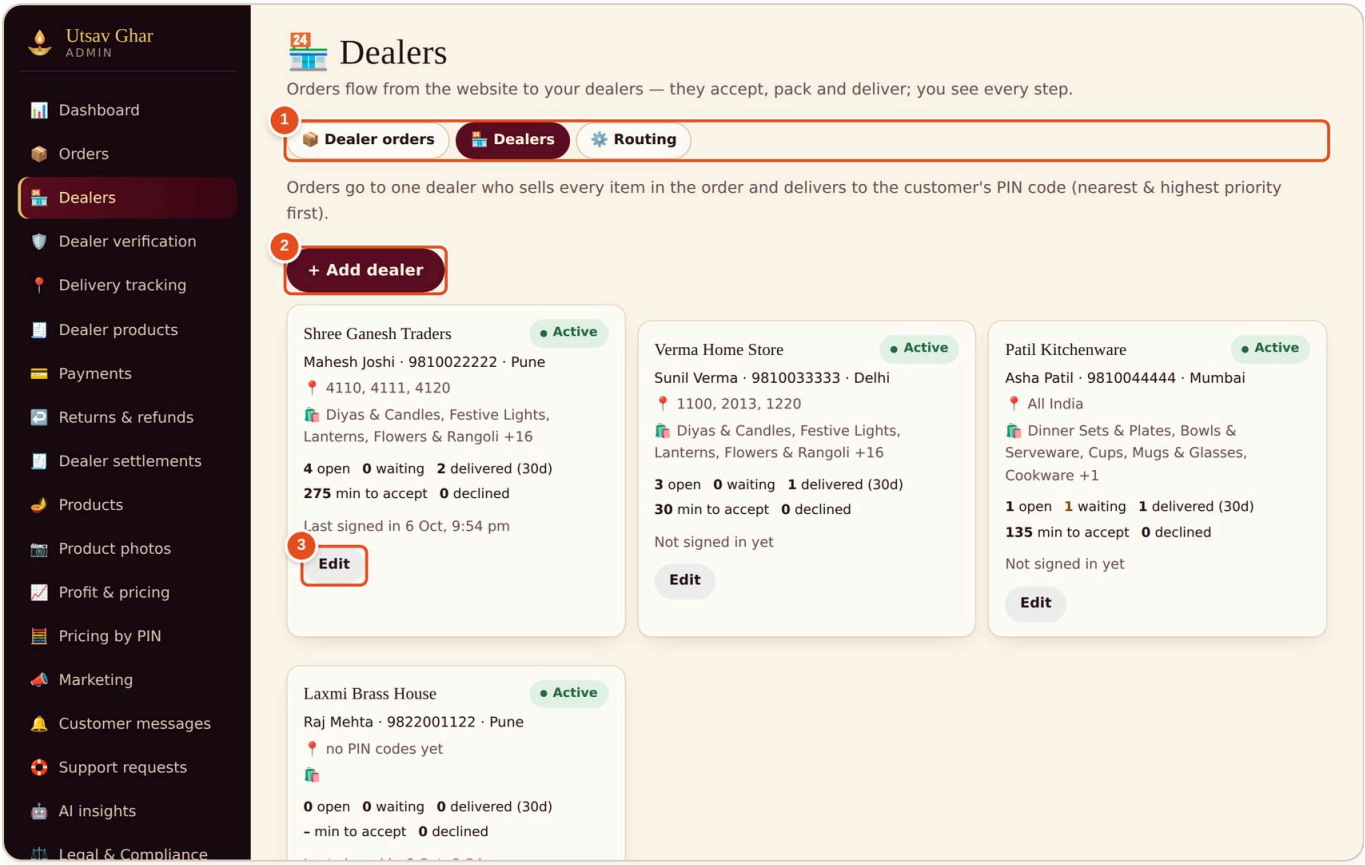

4 Dealer Management

📄 What is this page?

"Dealers" — dealer orders board, dealer list and order routing.

🎯 Why are we using this page?

Admin uses this page to manage the dealer lifecycle in operation: who serves which PIN codes and categories, and how orders are routed. Onboarding and approval happen in Dealer verification.

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. Tabs: Dealer orders · Dealers · Routing
2. + Add dealer
3. Edit dealer — PIN codes, categories, active, reset password

✅ What can I do here?

- ✓ Dealer orders: follow every dealer order; assign paid orders that have no dealer ("Find dealer")
- ✓ Dealers: add a dealer (one-time password shared by WhatsApp), edit PIN codes ("4110", "411001-411050"), "Ships anywhere in India", categories, priority, Active
- ✓ Routing: auto-send paid orders, auto-move when rejected/not accepted, acceptance time (10–1440 min)

🏷️ Status meaning

Status	Meaning
Draft	You started but have not finished and signed.
Submitted	Your details reached our team.
Documents pending	We asked for more documents.
Under review	Agreement signed; our team is checking documents.
Documents rejected	One or more documents must be uploaded again (reason shown).
Agreement pending	Please sign the (new) agreement.
Agreement signed	Signature recorded.
Approved	You receive orders and can add products.
Rejected	Application not approved (reason shown).
Suspended	New orders are paused until reinstated.
Terminated	The agreement ended; the account is switched off.

⚠️ Important

- A dealer added here gets a 14-day grace period to finish KYC and sign.
- Approval needs delivery PIN codes to be set here first.

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

5

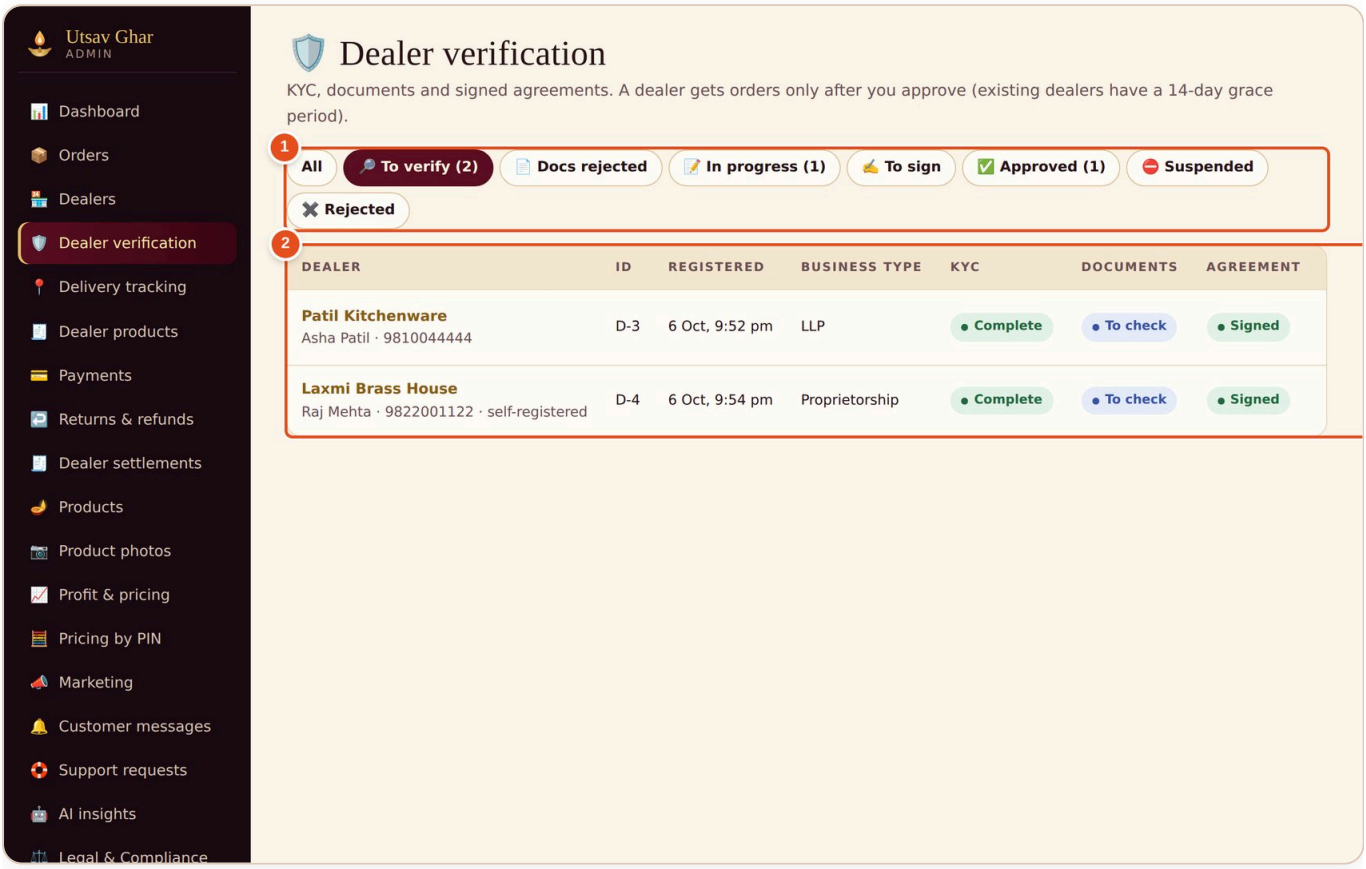

Dealer Verification

📄 What is this page?

"🛡️ Dealer verification" — the queue of dealers in onboarding.

🎯 Why are we using this page?

A dealer may receive orders only after KYC, documents and the signed agreement are checked and approved.

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. Tabs: To verify, Docs rejected, In progress, To sign, Approved, Suspended, Rejected
2. KYC, documents, agreement, status and whether the dealer receives orders

🪜 Step-by-step

1. Open "🔎 To verify".
2. Open a dealer.
3. Check business and KYC, verify documents, read the signed agreement.
4. Use Decision: ✅ Approve dealer (or request documents / correction / reject).

🏷️ Status meaning

Status	Meaning
Draft	You started but have not finished and signed.
Submitted	Your details reached our team.
Documents pending	We asked for more documents.
Under review	Agreement signed; our team is checking documents.
Documents rejected	One or more documents must be uploaded again (reason shown).
Agreement pending	Please sign the (new) agreement.
Agreement signed	Signature recorded.
Approved	You receive orders and can add products.
Rejected	Application not approved (reason shown).
Suspended	New orders are paused until reinstated.
Terminated	The agreement ended; the account is switched off.

⚠️ Important

- Only Owner and Manager roles can open this page.

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

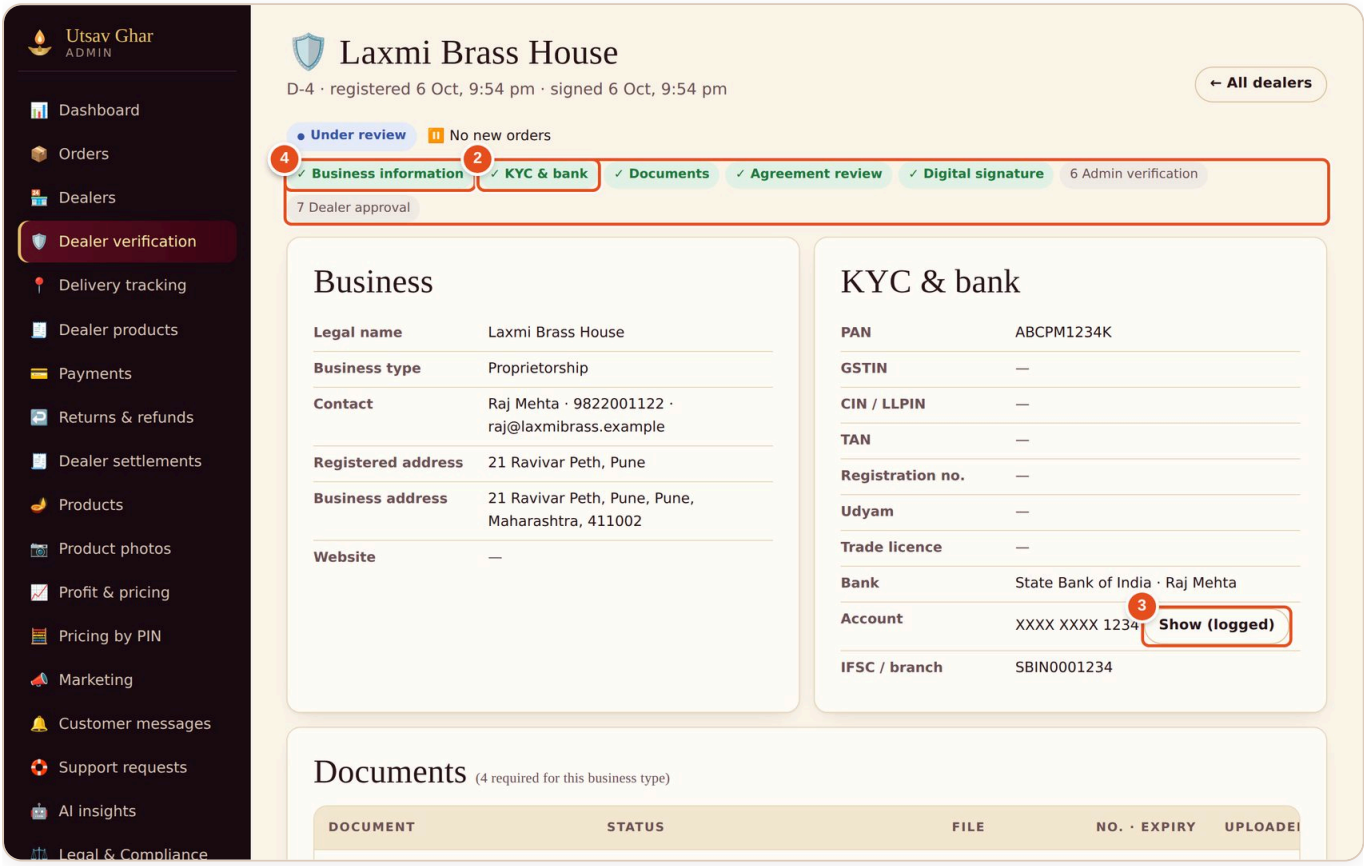

6 KYC Management

📄 What is this page?

The dealer detail page in Dealer verification.

🎯 Why are we using this page?

To confirm the business is genuine and payments go to the right account.

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. Business details
2. KYC & bank (PAN, GSTIN, CIN, bank)
3. Show (logged) — owner can reveal the full account number; this is recorded
4. Onboarding steps with progress

🪜 Step-by-step

1. Compare legal name, PAN and GSTIN with the documents.
2. Check the bank holder name matches the business/proprietor.
3. Reveal the account number only if needed ("Show (logged)").

⚠️ Important

- Bank numbers are encrypted; every reveal is written to the audit log.

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

7

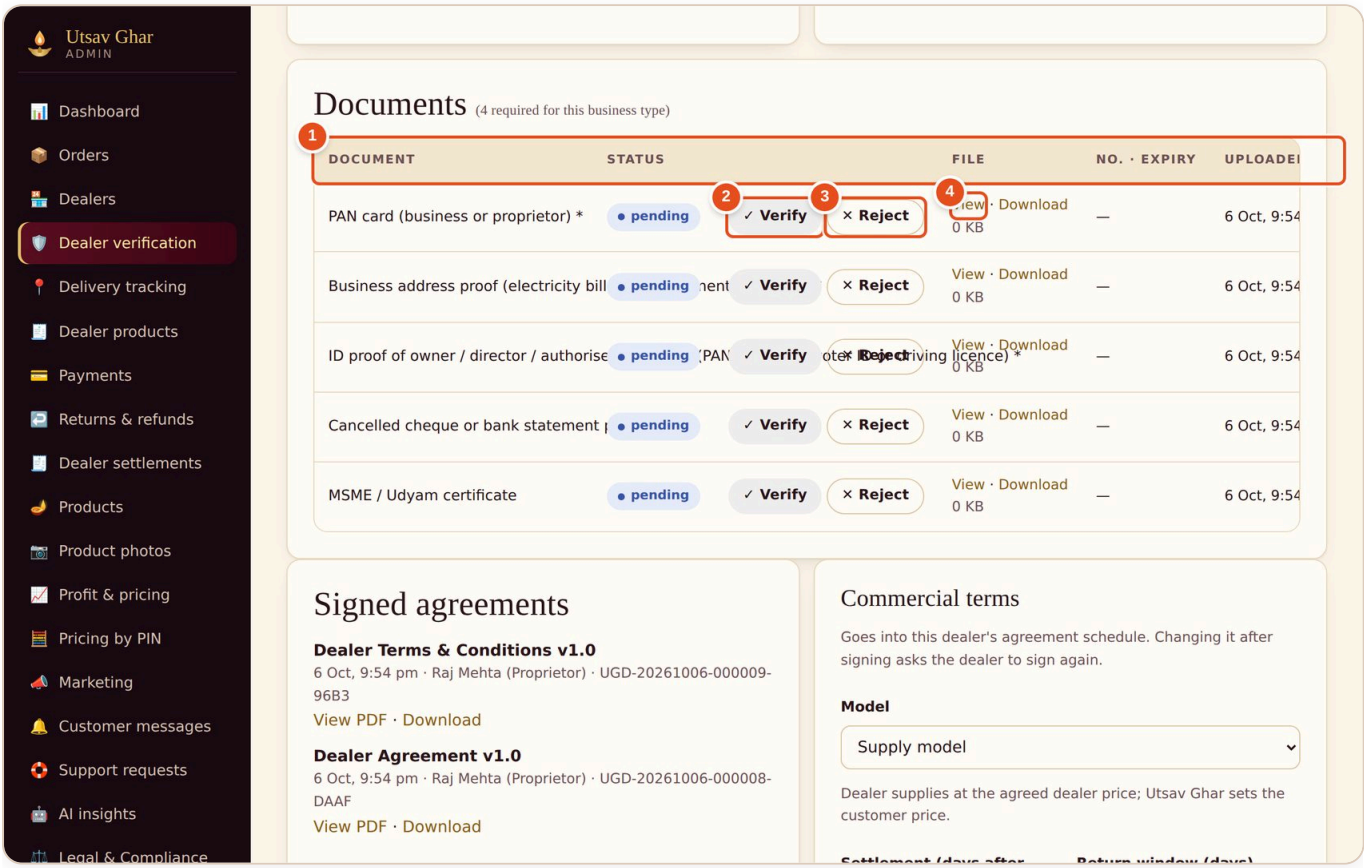

Document Verification

📄 What is this page?

The Documents section of the dealer detail page.

🎯 Why are we using this page?

Document verification is necessary to confirm identity, address, tax registration and bank ownership before a dealer can sell.

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. Document · Status · File · Number/expiry · Uploaded
2. ✓ Verify
3. × Reject — with a reason the dealer sees
4. View / Download

🪜 Step-by-step

1. Tap "View" and check the file is clear, current and in the right name.
2. Tap "✓ Verify", or "× Reject" with a reason (quick reasons: blurred, name mismatch, expired, wrong document, number mismatch).
3. To ask for more documents use Decision → "📄 Request documents".

📬 What happens after I submit?

Rejecting notifies the dealer and sets status "Documents rejected". When all required documents are verified and the agreement is signed, "✅ Approve dealer" becomes active.

🏷️ Status meaning

Status	Meaning
Pending	Not uploaded yet.
Uploaded ✓ · Under review	Uploaded; waiting for our team.
Approved	Checked and accepted.
Rejected	Not accepted — read the reason and upload again.

🛠️ PLANNED FEATURE

- Separate "Reviewer" column and free comments per document are Planned Features (the reviewer is recorded in the audit history).

This is not available in the app yet. Until it is, use the steps given here.

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

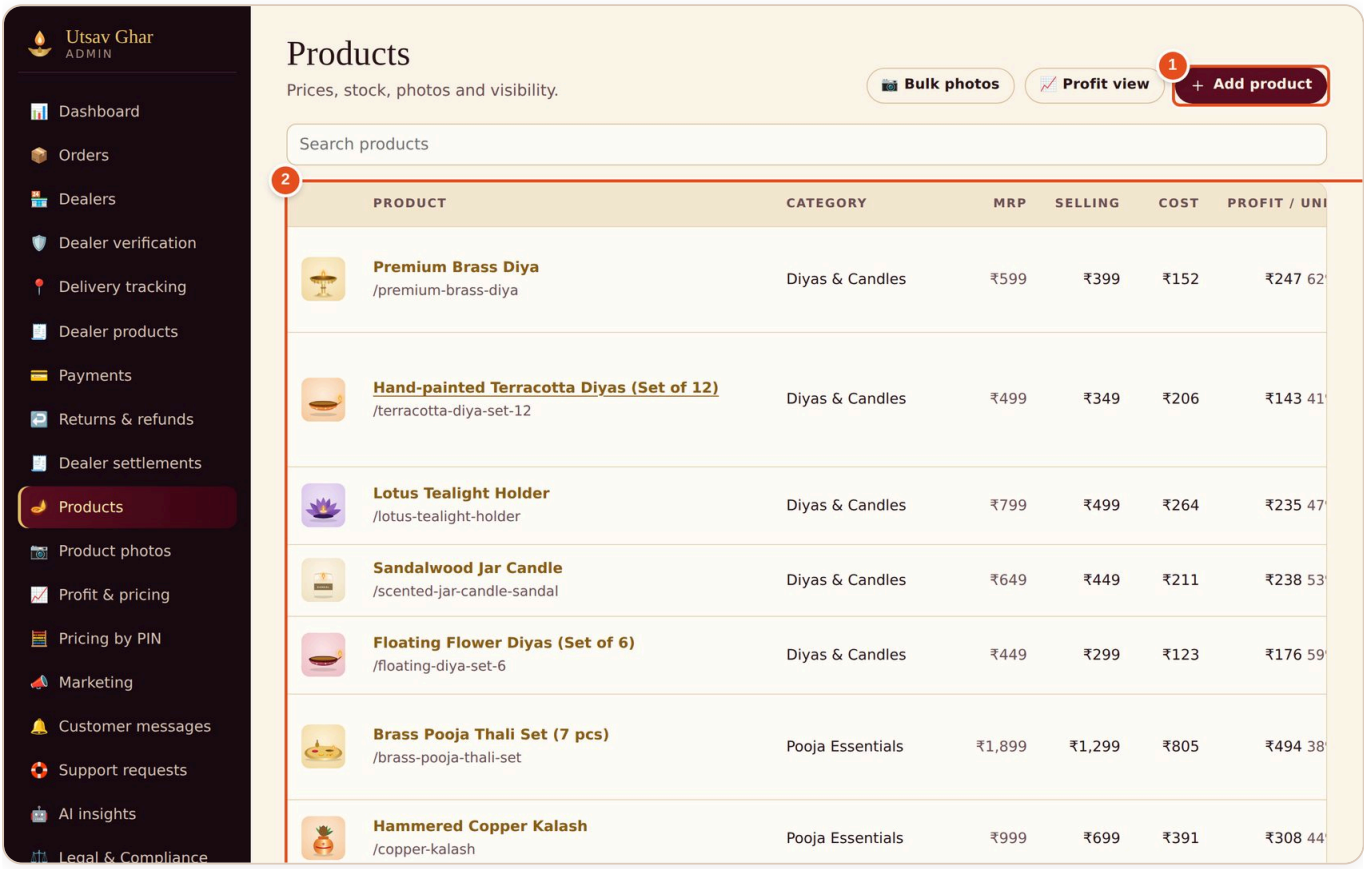

8 Product Management

📄 What is this page?

"Products" (your catalogue) and "Dealer products" (products dealers sent for review).

🎯 Why are we using this page?

Every product customers see must have correct details, price, cost and photos.

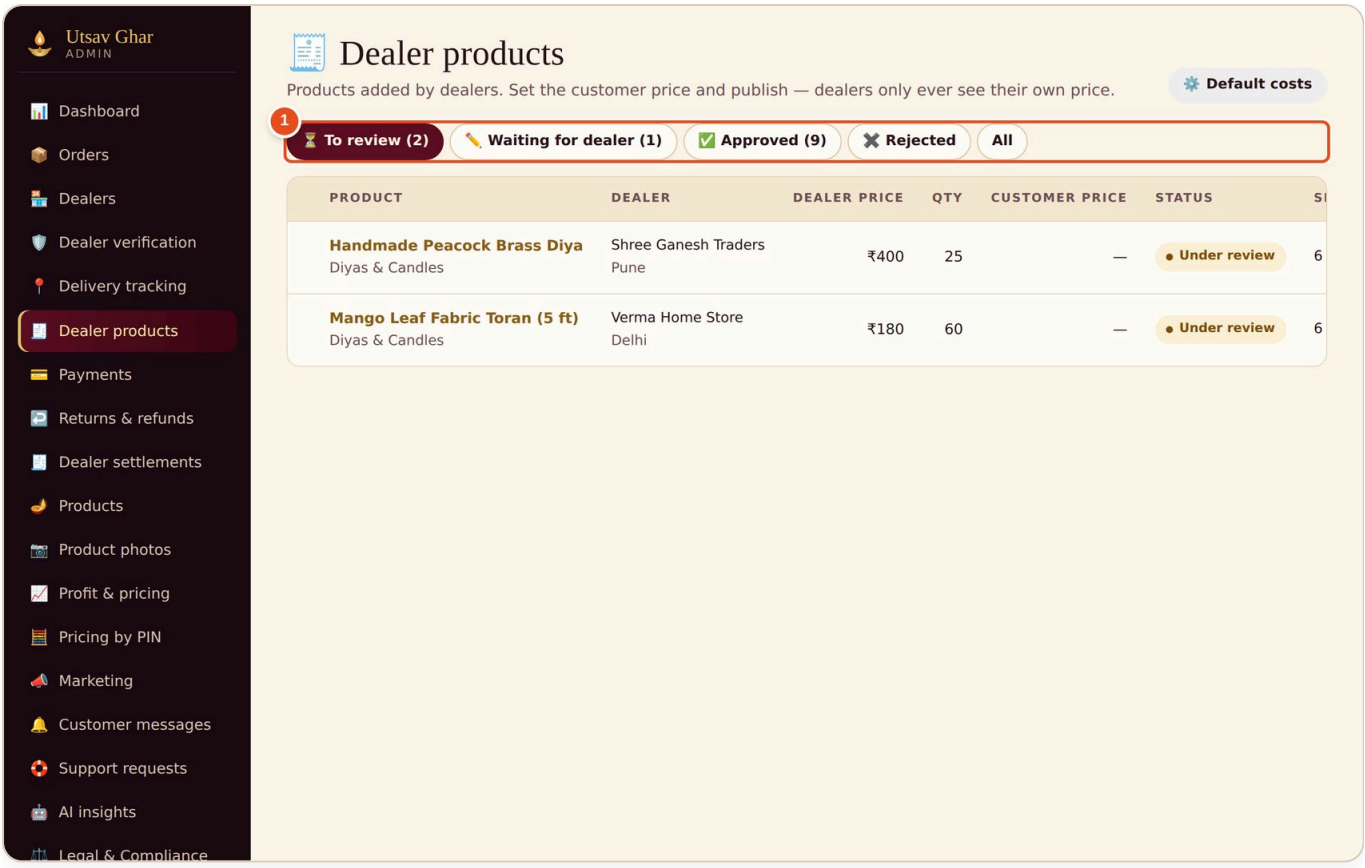

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. Add product
2. MRP, selling price, cost, profit/unit, stock, flags, Live/Hidden

✅ What can I do here?

- ✓ Add/edit products: details, specifications, SEO, up to 6 photos, MRP, selling price, cost, stock, low-stock alert, visibility
- ✓ "✨ Write for me" — help writing descriptions
- ✓ Dealer products: review, set customer price with the 🧮 calculator, "✅ Approve & publish", "✏️ Ask for changes" or "✖️ Reject"
- ✓ Product photos: bulk upload by file name

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. Dealer products queue: To review, Waiting for dealer, Approved, Rejected

⚠️ Important

- A product that has orders is archived instead of deleted.
- The dealer never sees the customer price, MRP or margin.

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

9

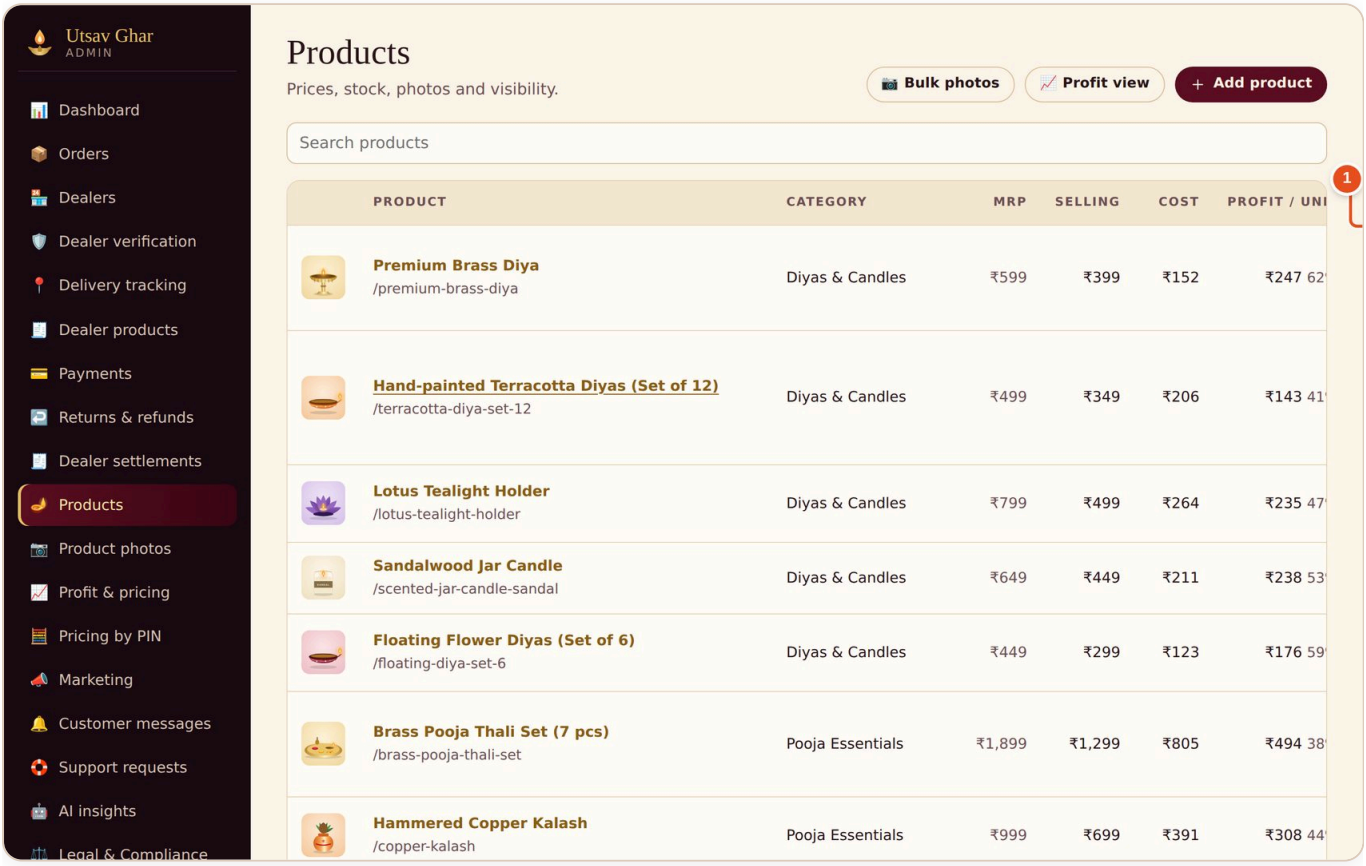

Inventory

📄 What is this page?

Stock is managed per product (Products) and by dealers for their listings.

🎯 Why are we using this page?

Correct stock prevents selling items you cannot deliver.

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. Stock column — edit in the product form; "Low-stock alert at"

✅ What can I do here?

- ✓ See low stock on the Dashboard
- ✓ Edit stock and low-stock threshold in the product form
- ✓ AI insights → Forecast & stock alerts: what to reorder

⚠️ Important

- Cancelling an order puts its stock back. Dealer stock updates go live immediately.

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

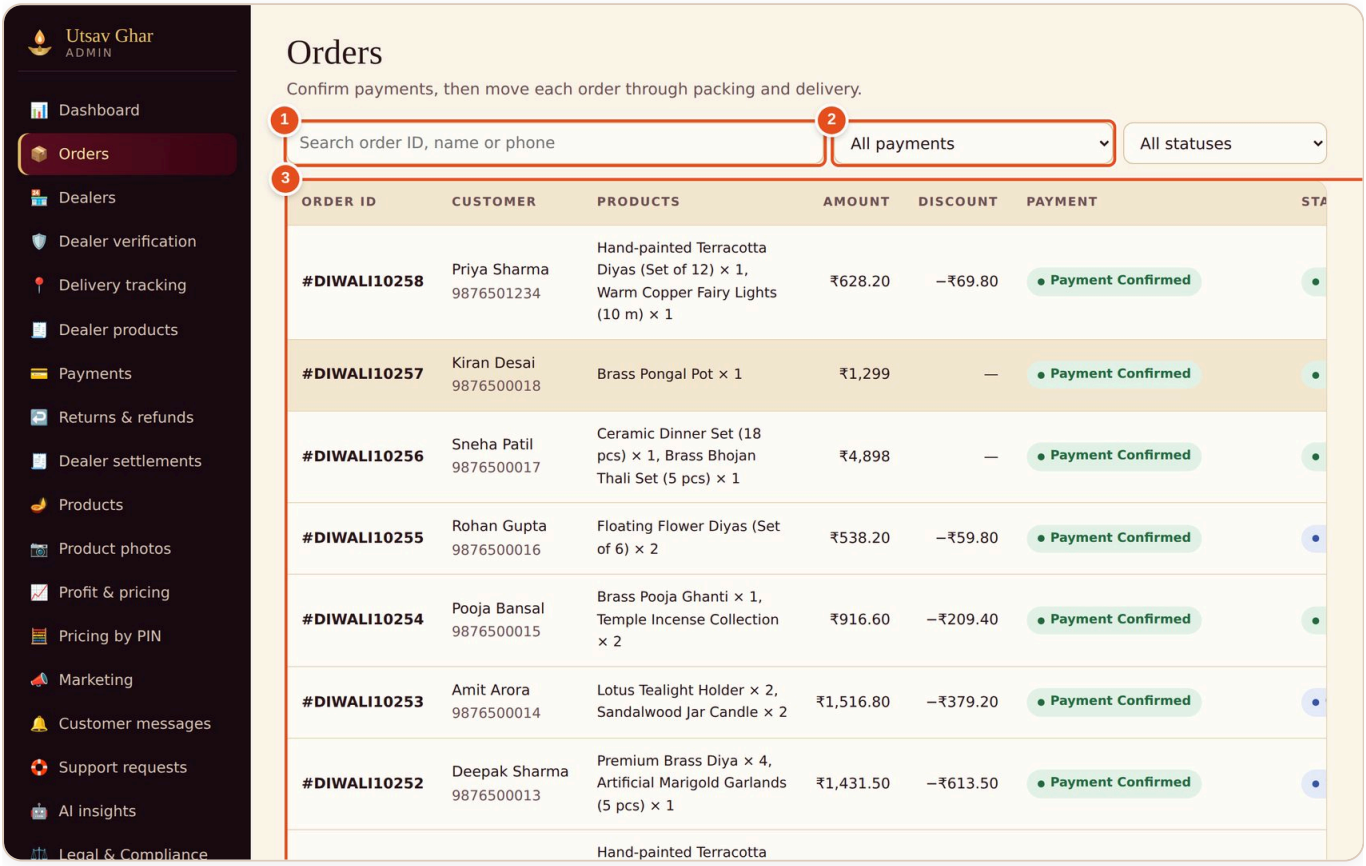

10 Order Management

📄 What is this page?

"Orders" — every order and its detail window.

🎯 Why are we using this page?

To confirm payments and move each order through packing and delivery.

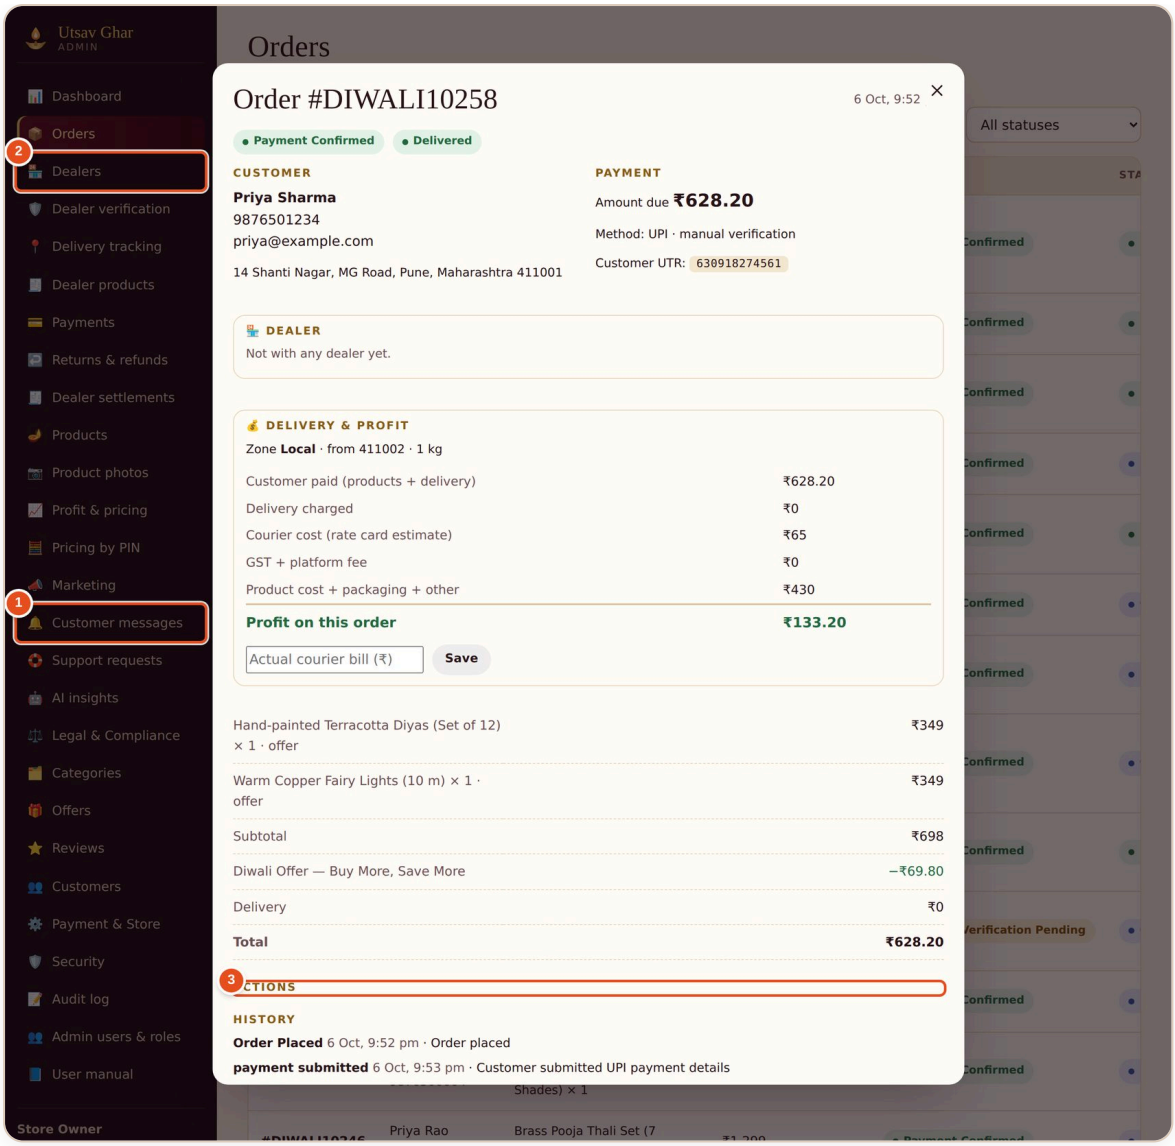

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. Search order ID, name or phone
2. Filter by payment status and order status
3. Orders list — tap one to open details

🪜 Step-by-step

1. Open an order.
2. Check payment (UTR / screenshot) → "Confirm Payment" or "Reject Payment".
3. Assign a dealer (or let auto-routing do it) — or process it yourself: "Process Order" → "Mark Shipped" (courier + tracking) → "Out for Delivery" → "Mark Delivered".
4. Add an "Internal note" when needed.

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. Customer and payment (UTR, screenshot)
2. 🏪 Dealer — assign / auto-pick best
3. Actions: Confirm Payment, Process, Mark Shipped, Out for Delivery, Delivered, Cancel, Mark Refunded

🏷️ Status meaning

Status	Meaning
Order Placed	We have your order.
Payment Confirmed	Payment received.
Processing / Sent to Dealer	Your items are being prepared, by us or a local dealer.
Order Accepted · Packed · Ready for Delivery	The dealer accepted, packed and handed it over.
Shipped	Given to a courier; tracking number shown.
Out for Delivery	Arriving today. Keep the delivery code ready.
Delivered	You received the parcel.
Cancelled	The order was cancelled; if paid, a refund follows.

⚠️ Important

- Reject Payment and Cancel Order ask you to tap twice.
- Confirm/Reject Payment: Owner, Manager or Finance. Cancel: Owner, Manager, Finance or Operations. Mark Refunded (cancelled orders): Owner or Finance.
- Every change sends the customer an update and is written to the order history.

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

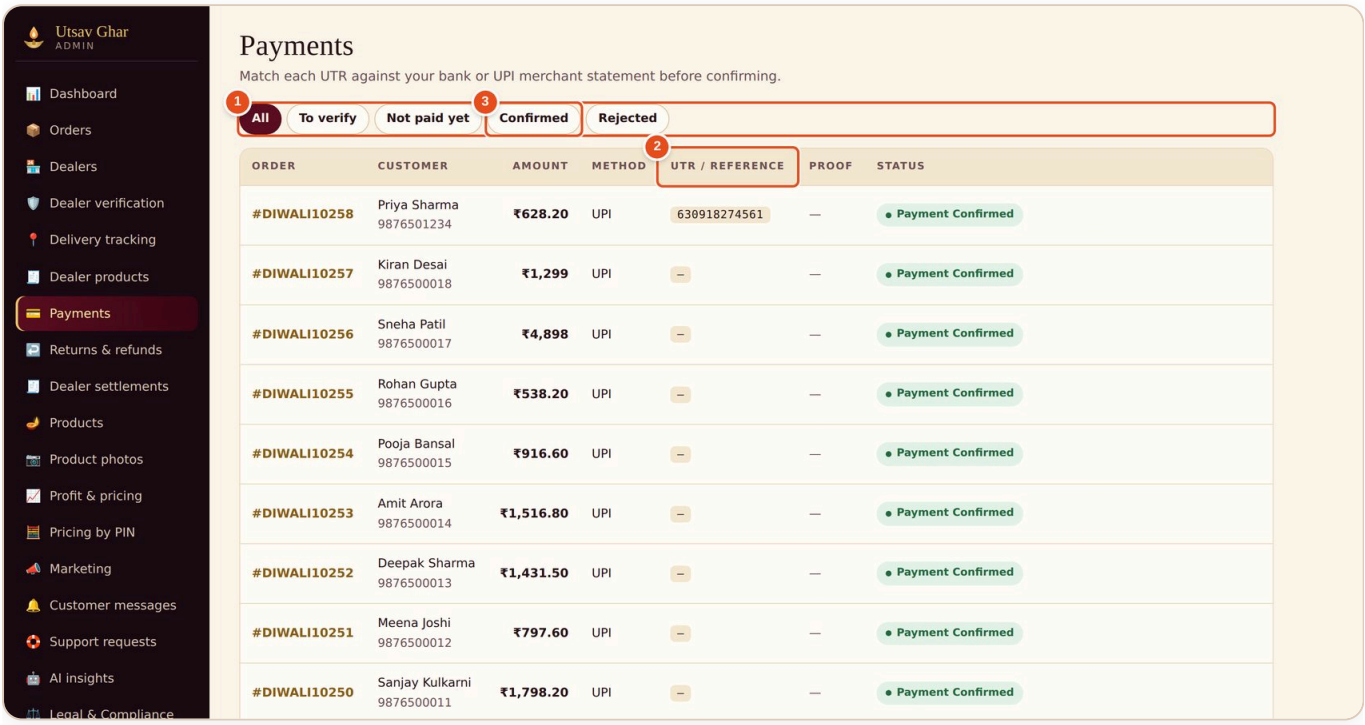

11 Payment Management

📄 What is this page?

"Payments" — the UPI verification queue.

🎯 Why are we using this page?

Manual UPI payments must be matched with the bank statement before the order is processed.

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. Tabs: All, To verify, Not paid yet, Confirmed, Rejected
2. UTR / reference and payment proof (screenshot link when uploaded)
3. Confirm / Reject

🪜 Step-by-step

1. Open "To verify".
2. Find the UTR and amount in your bank statement.
3. Tap "Confirm" if it matches; "Reject" if not.

🏷️ Status meaning

Status	Meaning
Awaiting Payment	Order is reserved but no payment has been received yet.
Payment Verification Pending	You told us you paid by UPI; our team is matching it with the bank statement.
Payment Confirmed	Money received. Your order moves to packing.
Payment Rejected	We could not match the payment. Pay again or contact us with the UTR.
Refunded	The money was returned to you after a cancellation.

⚠️ Important

- Check the ⚠️ risk badge before confirming large or unusual orders.
- Payment settings (UPI ID, QR, gateway) are in "Payment & Store" (Owner only).

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

12

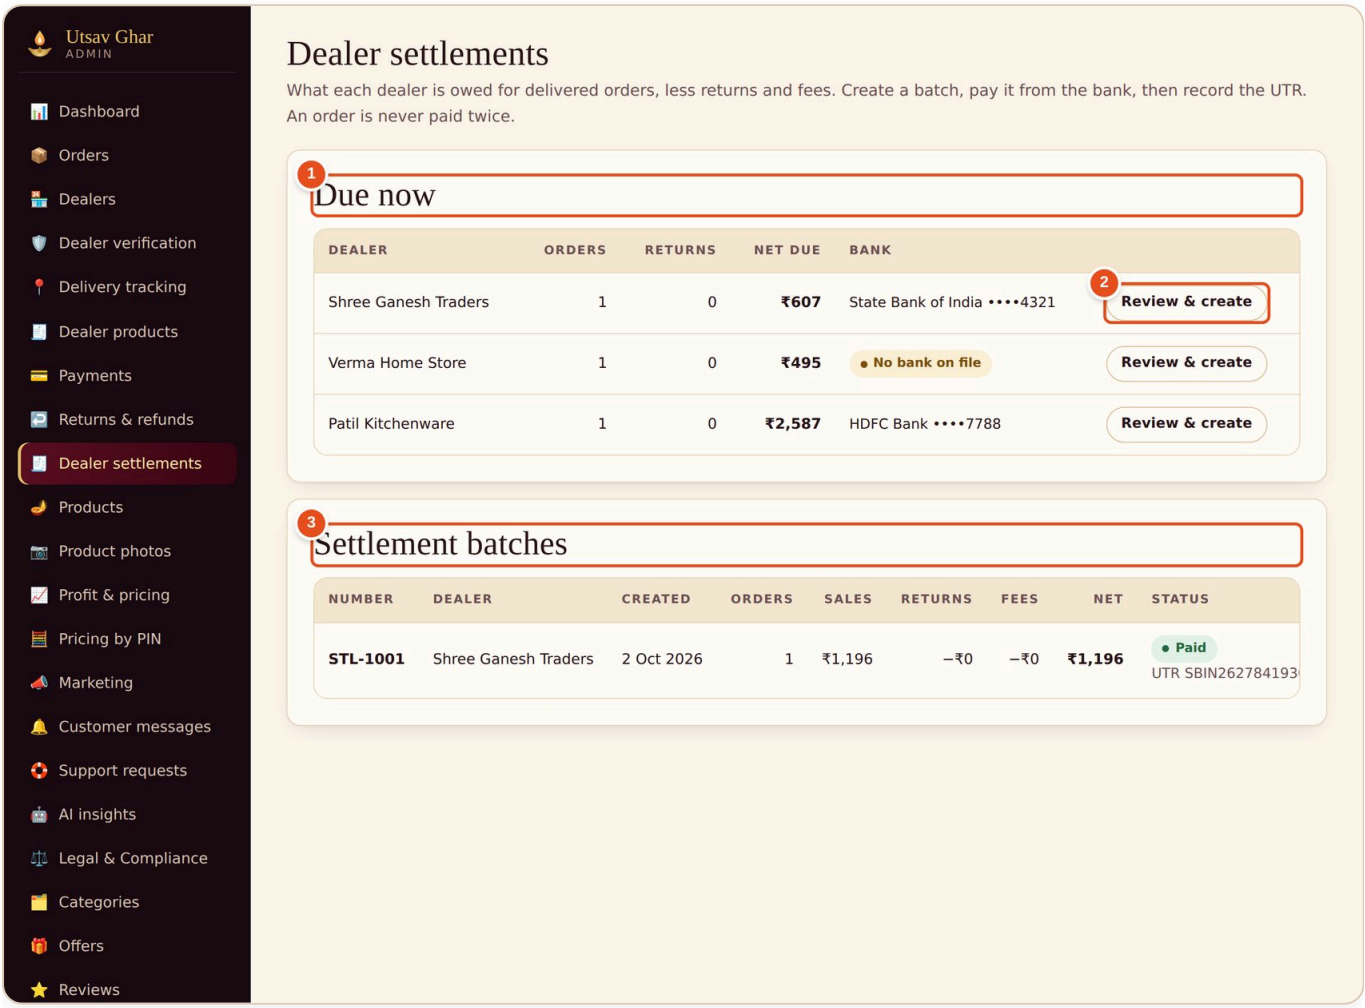

Settlement

📄 What is this page?

"🧾 Dealer settlements": what each dealer is owed for delivered orders, less returns and fees, and the payment batches.

🎯 Why are we using this page?

So every dealer is paid the right amount, once, with a record the dealer can see.

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

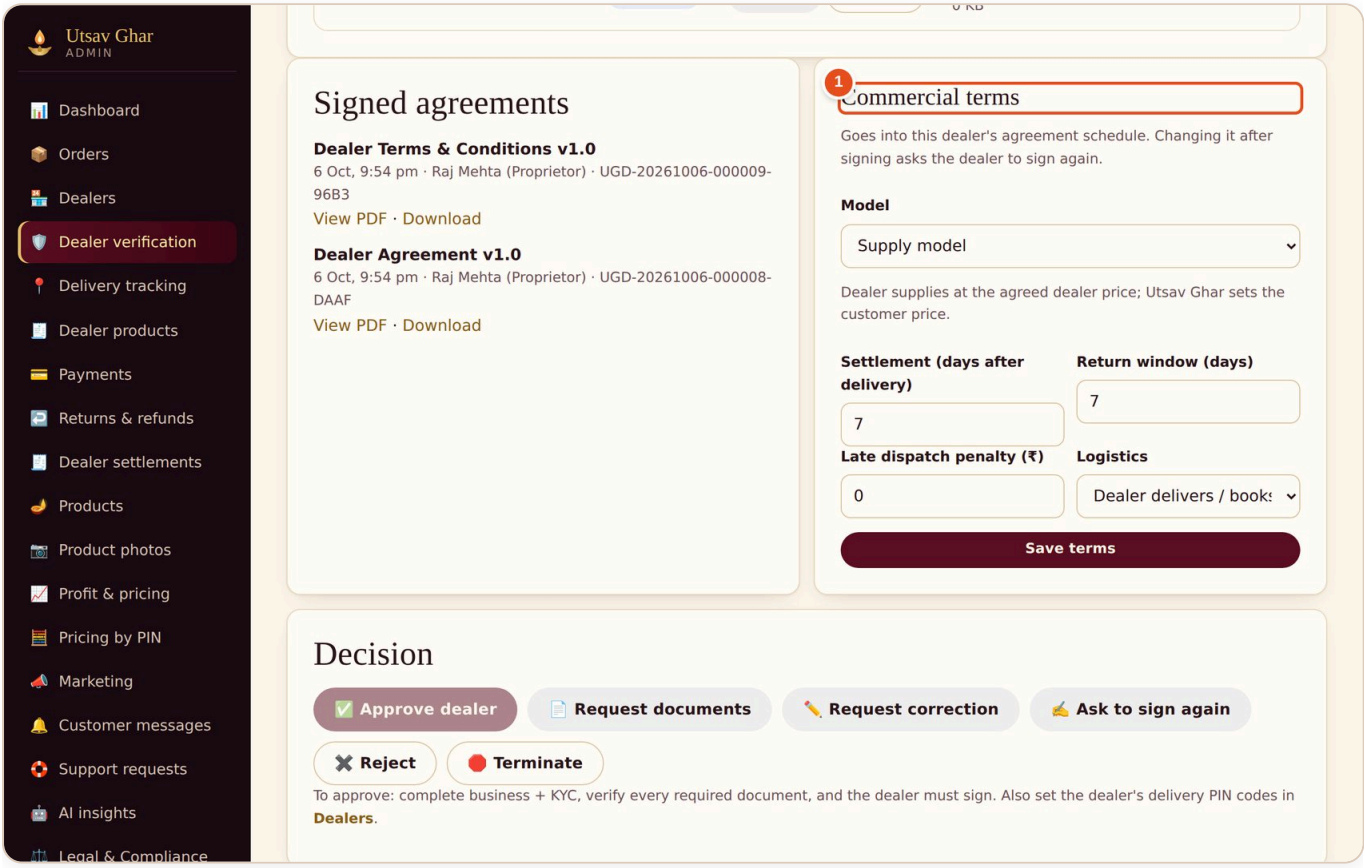

1. Due now: every dealer with delivered orders not yet settled
2. Review & create — see every order, return and the net
3. Settlement batches with status, net and UTR

✅ What can I do here?

- ✓ See what is due to each dealer
- ✓ Add adjustments (penalty − / bonus +)
- ✓ Create a settlement batch
- ✓ Mark it paid with the bank UTR
- ✓ Cancel a batch that was not paid

🪜 Step-by-step

1. Open "Dealer settlements".
2. In "Due now" tap "Review & create" for a dealer.
3. Check each order (📦) and return (↩️); add adjustments if needed.
4. Tap "Create settlement for ₹…" (status Processing).
5. Pay from your bank to the dealer's verified account.
6. Open the batch, type the UTR, tap "Mark paid". The dealer is notified.

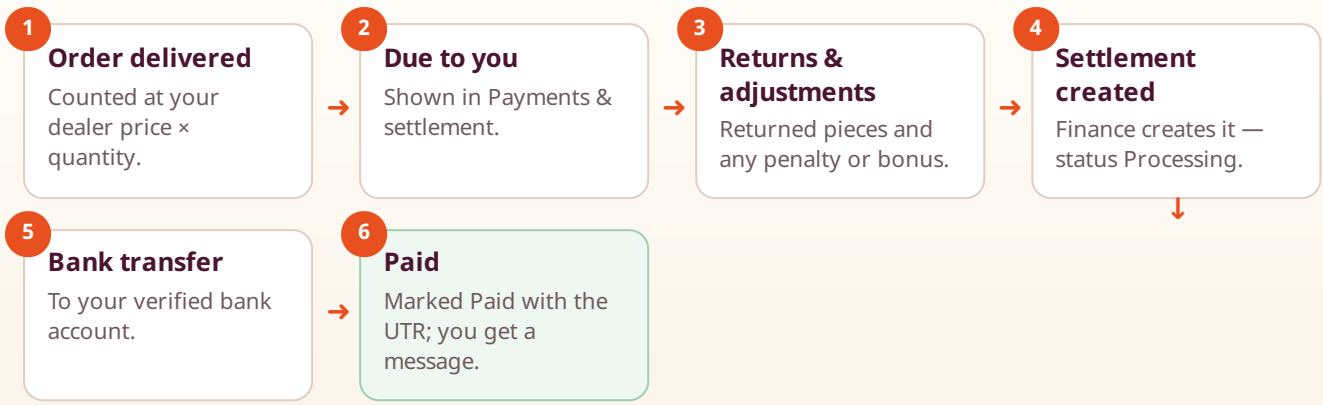

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. Commercial terms per dealer: model, commission, fees, settlement days, return window, penalty, logistics

🔀 Dealer settlement

🏷️ Status meaning

Status	Meaning
Processing	Finance created the settlement; the bank transfer is being made.
Paid	Sent to your bank account. The UTR reference and date are shown.
Cancelled	The batch was cancelled; its orders come back in the next settlement.

⚠️ Important

- Only the Owner and Finance Admin can create or pay settlements; others can view.
- An order or return is never counted in two active batches. Cancelling a batch releases its orders for the next one.
- A batch is never created for zero or a negative net — returns are carried forward.
- Supply model: dealer price × quantity (the snapshot taken when the order was placed). Commission model: item value − commission − platform fee − payment fee.
- Changing commercial terms after the dealer signed asks the dealer to sign again; new orders pause until then.

❌ Common mistakes

✗ Marking paid before the bank transfer is done

✗ Typing a UTR from another payment (it is refused if already used)

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

13

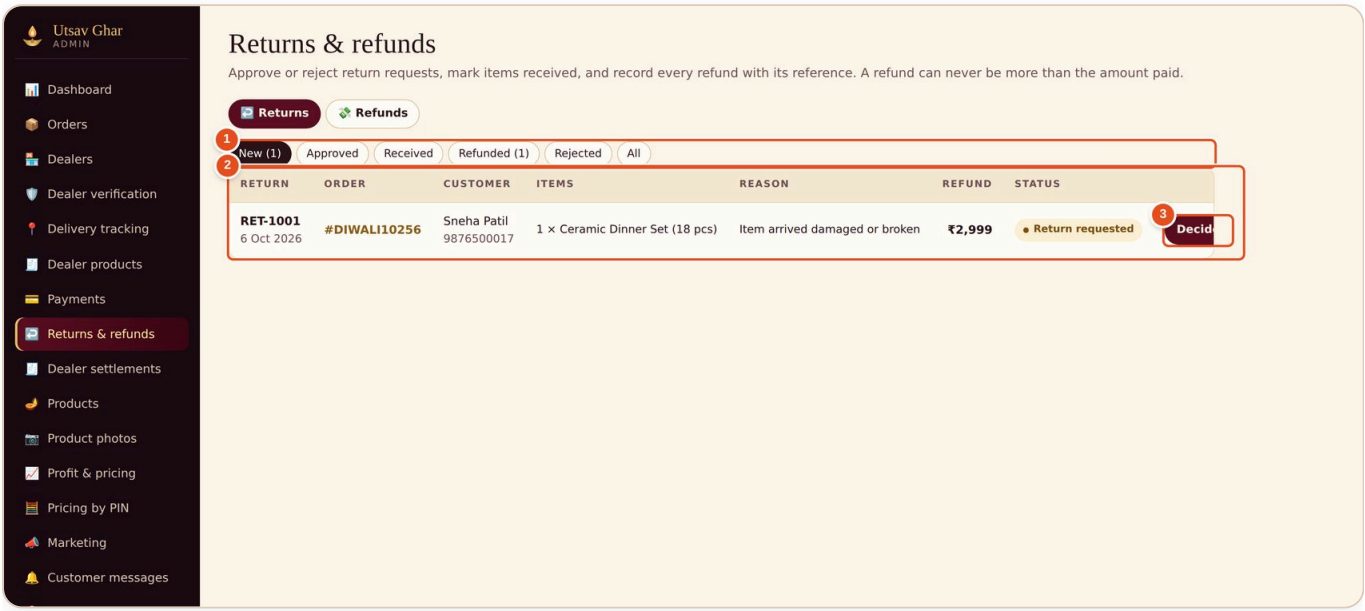

Returns

📄 What is this page?

"↩️ Returns & refunds" → Returns: return requests customers send from their order page.

🎯 Why are we using this page?

One place to check, approve and receive returns, put resaleable stock back and open the refund for finance.

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. Filter: New, Approved, Received, Refunded, Rejected, All
2. Return number, order, customer, items, reason, photo, refund amount, status
3. Decide: approve (refund can be lowered) or reject with a reason

🪜 Step-by-step

1. Open Returns & refunds → New.
2. Tap "Decide": check items, reason and photo.
3. Approve (optionally lower the refund) or reject with a note the customer sees.
4. Arrange the pickup; the delivering dealer is told automatically.
5. When the item arrives, tap "Mark received" and tick "resaleable" to put it back in stock.
6. A refund opens in the Refunds tab for finance.

🏷️ Status meaning

Status	Meaning
Return requested	We received your request and reply within 1 working day.
Approved — pickup pending	Keep the item packed. We arrange the pickup.
Received — refund in progress	We received the item; the refund is being sent.
Refunded	Money sent back to your original payment method (reference shown).
Not accepted	The reason is shown. Reply through Help Center if you disagree.
Return cancelled	The return was cancelled.

⚠️ Important

- The refund amount is calculated from what the customer paid (after discounts) plus delivery for damaged/wrong/missing items. You can lower it, never raise it.
- Returns are accepted within 7 days of delivery (damaged/wrong/missing: 48 hours).
- Owner, Manager, Finance, Operations and Support can decide returns; only Owner and Finance record refunds.

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

14

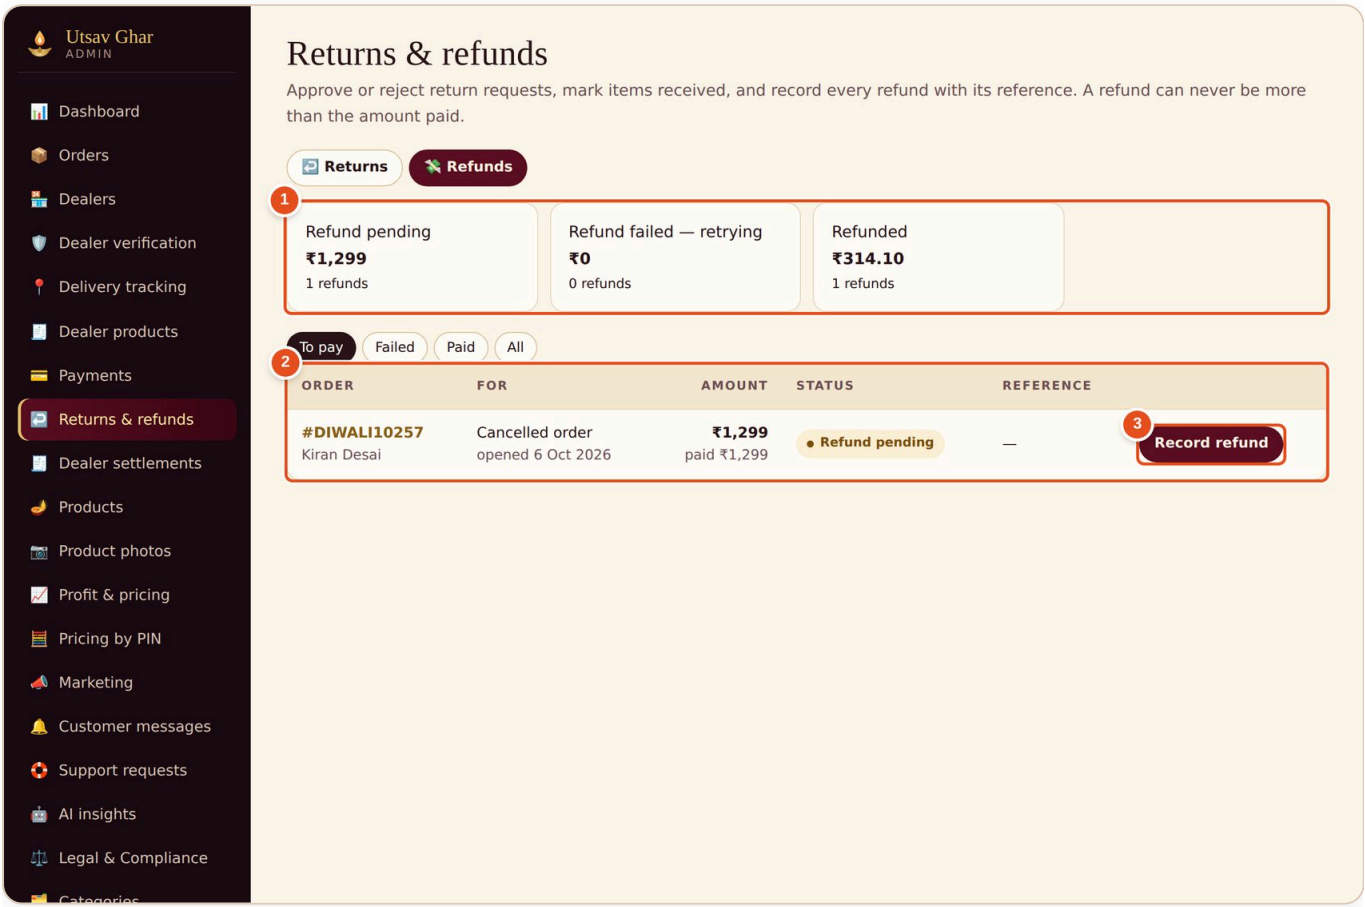

Refunds

📄 What is this page?

"↩️ Returns & refunds" → Refunds: every refund owed for cancelled paid orders and received returns.

🎯 Why are we using this page?

So every refund is paid once, never more than the customer paid, and the customer sees the reference.

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. Refunds to pay, failed and paid (amounts)
2. Order, cancelled order / return, amount, status, reference
3. Record refund — reference, method; or mark failed

🪜 Step-by-step

1. Open Refunds → "To pay".
2. Send the money (gateway refund or UPI/bank transfer).
3. Tap "Record refund", type the reference (UTR / refund ID) and method, tap "Mark refunded".
4. If the bank returns it, tap "Record refund" → "Mark failed (retry later)" with the reason, then record it again after retrying.

🏷️ Status meaning

Status	Meaning
Refund pending	The refund is opened and waiting for our finance team.
Refunded	Sent. The bank reference (UTR / refund ID) is shown.
Refund failed — retrying	The bank returned it (e.g. account closed). Our team retries and may contact you.

⚠️ Important

- Recording a refund does not send money by itself — send it first.
- A refund cannot be marked paid twice, a reference can be used once, and refunds can never add up to more than the order total.
- When everything paid is refunded, the order payment shows "Refunded"; partial refunds keep "Payment Confirmed" with the refund listed.
- Cancelling a paid order opens a full refund automatically (also when a customer cancels).

🛠️ PLANNED FEATURE

- Sending gateway refunds directly from the admin (instead of recording them) is a Planned Feature.

This is not available in the app yet. Until it is, use the steps given here.

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

15

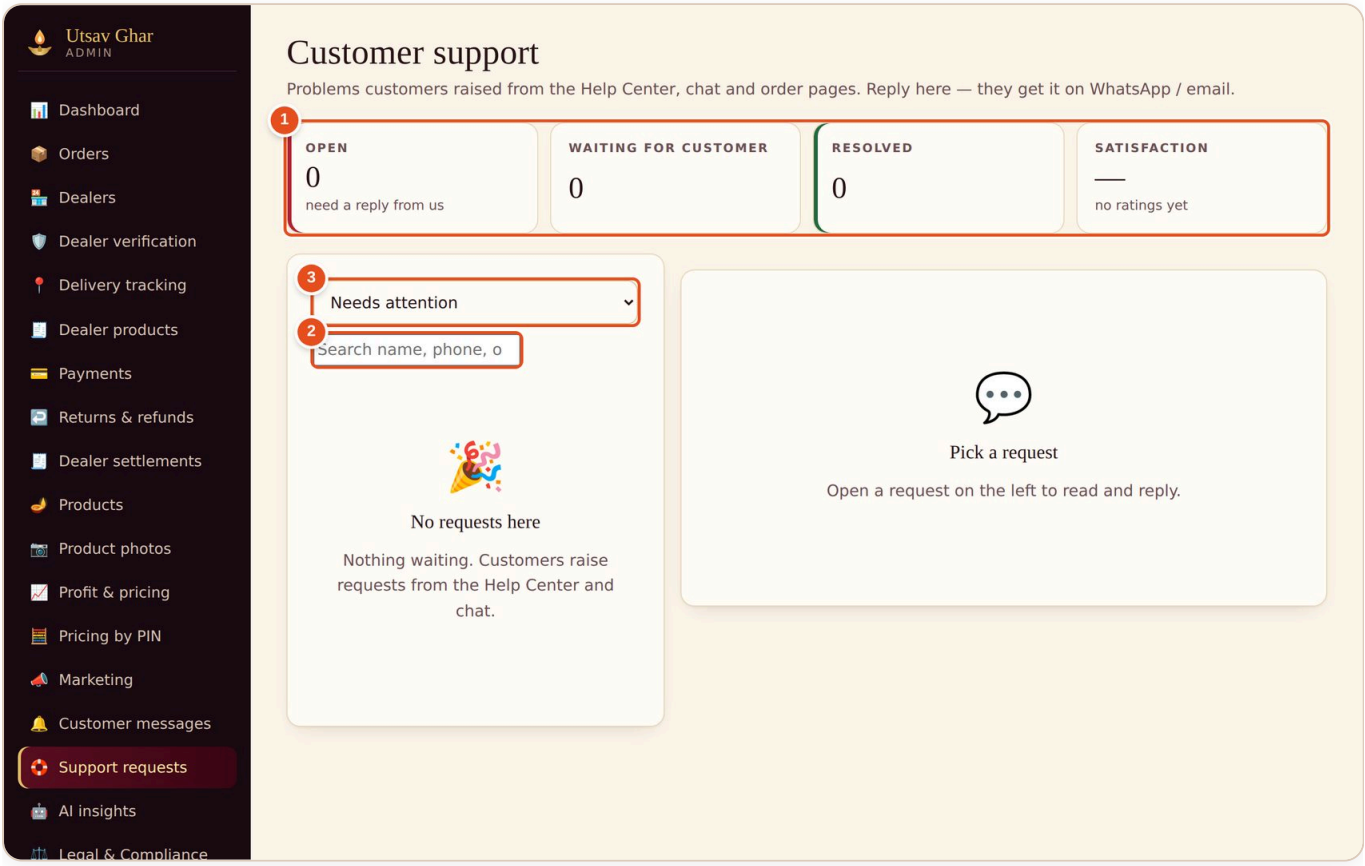

Customer Support

📄 What is this page?

"Support requests" (page title "Customer support").

🎯 Why are we using this page?

To answer customer requests quickly and keep a record of every conversation.

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. Open, waiting for customer, resolved, satisfaction
2. Search name, phone, order, HELP-...
3. Filter and ticket list — each ticket shows status and priority

🪜 Step-by-step

1. Filter "Needs attention".
2. Open a ticket; set priority (Normal/High/Urgent).
3. Use a quick reply or write one; choose what happens after sending (wait for customer / keep working / mark resolved).
4. Tap "Send reply".

🏷️ Status meaning

Status	Meaning
Open	We received your request.
We are working on it	Someone from our team is handling it.
Waiting for your reply	We asked you something — please reply.
Resolved	Solved. Rate us with 1–5 stars.
Closed	Finished. Raise a new request if needed.

🛠️ PLANNED FEATURE

- Assigning tickets to a team member is a Planned Feature.

This is not available in the app yet. Until it is, use the steps given here.

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

16

Dealer Support

📄 What is this page?

How the team supports dealers today.

🎯 Why are we using this page?

Dealers contact the team by phone, WhatsApp or email.

✅ What can I do here?

- ✓ Reset a dealer password (Dealers → Edit → Reset password)
- ✓ Change PIN codes, categories or active status
- ✓ Message a dealer about a policy issue (Legal & Compliance → Dealer compliance → Violations → Contact dealer)
- ✓ Ask to re-sign, request documents or corrections (Dealer verification → Decision)

🛠️ PLANNED FEATURE

- A dealer support-ticket queue is a Planned Feature.

This is not available in the app yet. Until it is, use the steps given here.

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

17

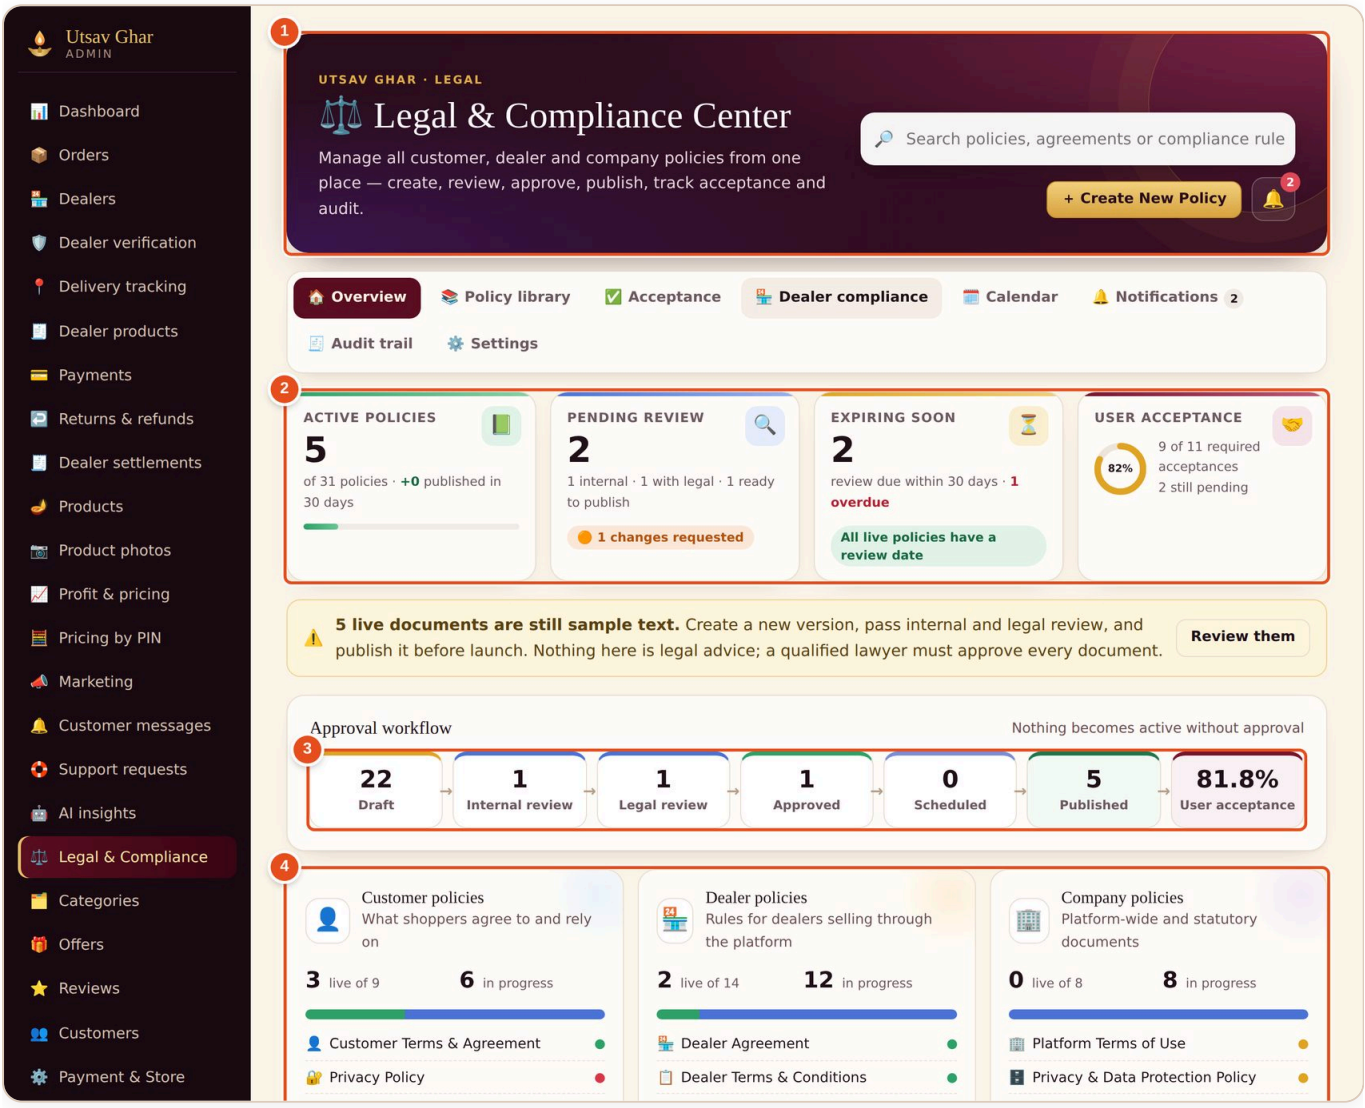

Legal & Policies — Legal & Compliance Center

📄 What is this page?

"⚖️ Legal & Compliance" — the central legal control center.

🎯 Why are we using this page?

Admin uses it to create, review, approve, publish, update and track all legal policies and agreements, and to watch dealer compliance.

📷 Actual screen from the Utsav Ghar website / app (demo data).

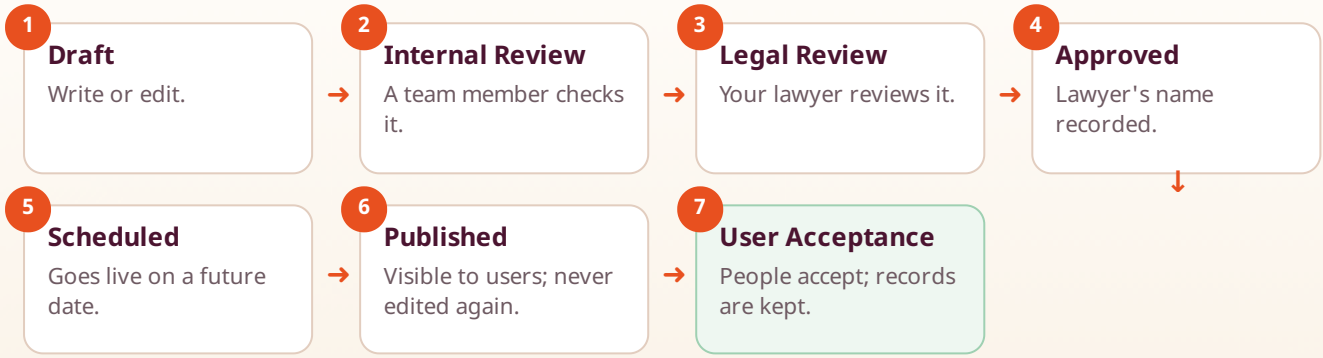

🔢 WHAT THE NUMBERS SHOW

1. Search and "+ Create New Policy"
2. Active Policies · Pending Review · Expiring Soon · User Acceptance
3. Approval workflow with counts
4. Customer, Dealer and Company policy categories

✅ What can I do here?

- ✓ Overview: KPIs, workflow, categories, "Needs your attention", recent activity, acceptance, policy checklist
- ✓ Policy library (31 policies): Customer — Terms, Privacy, Payment, Shipping, Cancellation/Return/Refund, Reviews, Account security, Prohibited activities, Complaints. Dealer — Agreement, T&C, KYC, Listing, Pricing & Fees, Settlement, Fulfilment, Returns, Customer communication, Customer data, IP, Product safety, Performance, Violations/Suspension/Termination. Company — Platform terms, Data protection, Cookies, Communication, Dispute resolution, Fraud, Security, Legal notice
- ✓ Acceptance, Dealer compliance, Calendar, Notifications, Audit trail, Settings

🔀 Policy approval workflow

🏷️ Status meaning

Status	Meaning
🟡 Draft	Being written; can be edited.
🔵 Internal review	Locked; a team member checks it.
🔵 Under legal review	With your lawyer.
🟠 Changes requested	Sent back; edit and resubmit.
✅ Approved	Ready to publish.
🗓️ Scheduled	Published with a future effective date.
🟢 Published	Live; users see and accept it.
🔴 Expired	Still live, but its review date has passed.
• Archived	Retired; kept as a legal record.

⚠️ Important

- All policy text is original Utsav Ghar wording. A qualified lawyer must review and approve every document before it is published.
- Owner can create/approve/publish; Manager can view.

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

18

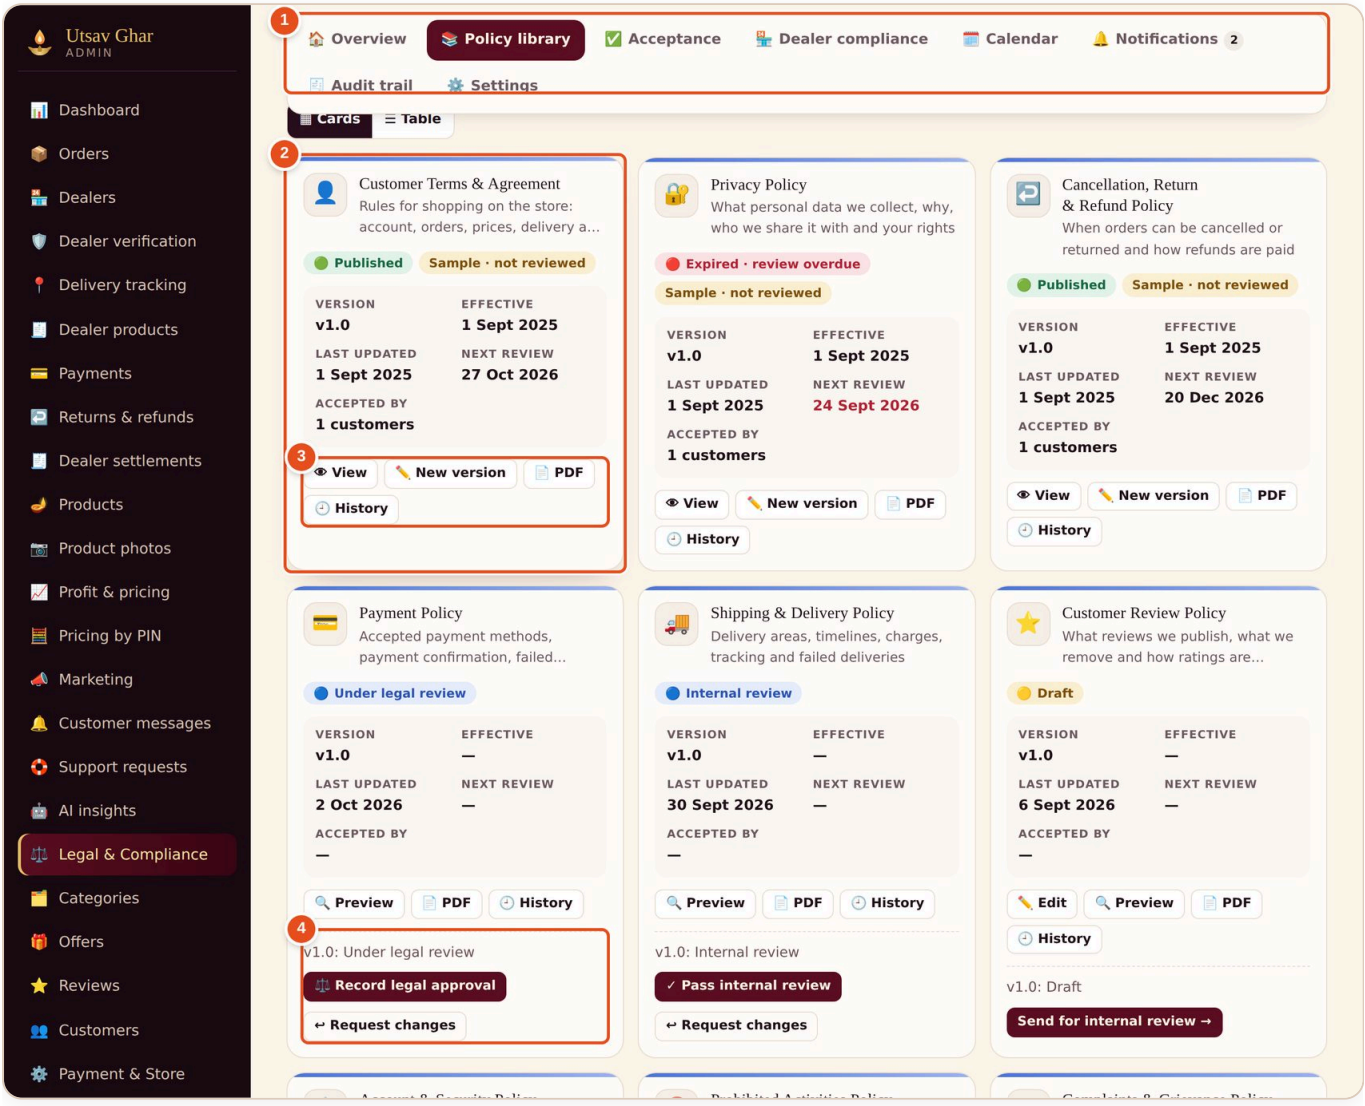

Agreement Management

📄 What is this page?

Policy library, the "Create New Policy" wizard and the policy editor.

🎯 Why are we using this page?

To keep every agreement and policy accurate, current and approved.

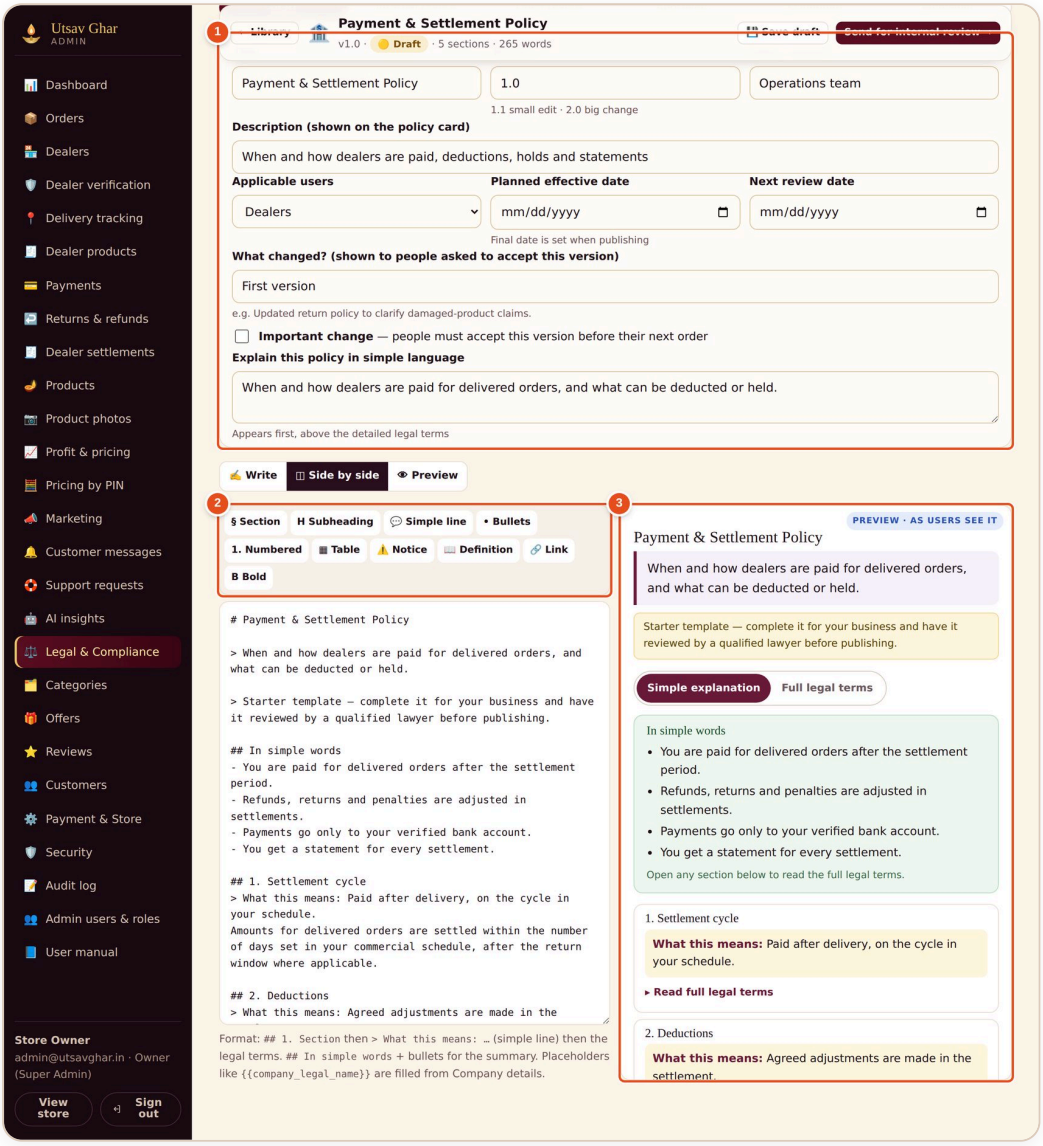

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. Filters: All, Customer, Dealer, Company, Published, Draft, Review, Scheduled, Expired, Archived
2. Policy card: status, version, effective, updated, next review, accepted by
3. View · Edit / New version · Preview · PDF · History
4. Next workflow step

🪜 Step-by-step

1. "+ Create New Policy": choose type → basic information (name, description, owner, version, effective and review dates, applicable users, countries, status) → simple explanation → start from live version, starter template or blank.
2. Edit in the editor; write "What changed?"; tick "Important change" if people must accept again.
3. "Send for internal review →" → "✓ Pass internal review" → "⚖️ Record legal approval" (lawyer name + confirmation) → "🚀 Publish…" (effective date, next review date).
4. Use "↩ Request changes" to send back.

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. Title, version, owner, dates, "What changed?", simple explanation
2. Insert: section, subheading, simple line, bullets, numbered, table, notice, definition, link, bold
3. Live preview as users see it

🏷️ Status meaning

Status	Meaning
🟡 **Draft**	Being written; can be edited.
🔵 **Internal review**	Locked; a team member checks it.
🔵 **Under legal review**	With your lawyer.
🟠 **Changes requested**	Sent back; edit and resubmit.
✅ **Approved**	Ready to publish.
🗓️ **Scheduled**	Published with a future effective date.
🟢 **Published**	Live; users see and accept it.
🔴 **Expired**	Still live, but its review date has passed.
⚫ **Archived**	Retired; kept as a legal record.

⚠️ Important

- PDF management: every version has View PDF / Download PDF / Print. Policy PDFs include logo, company name, document name, version, effective date, full content, page numbers, footer, reference number and approval information. Signed dealer agreements also include dealer name and ID, signature, date/time, version and digital acceptance details (OTP, IP, device, fingerprint).
- Do not change the meaning of legally approved text when writing the simple explanation.

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

19

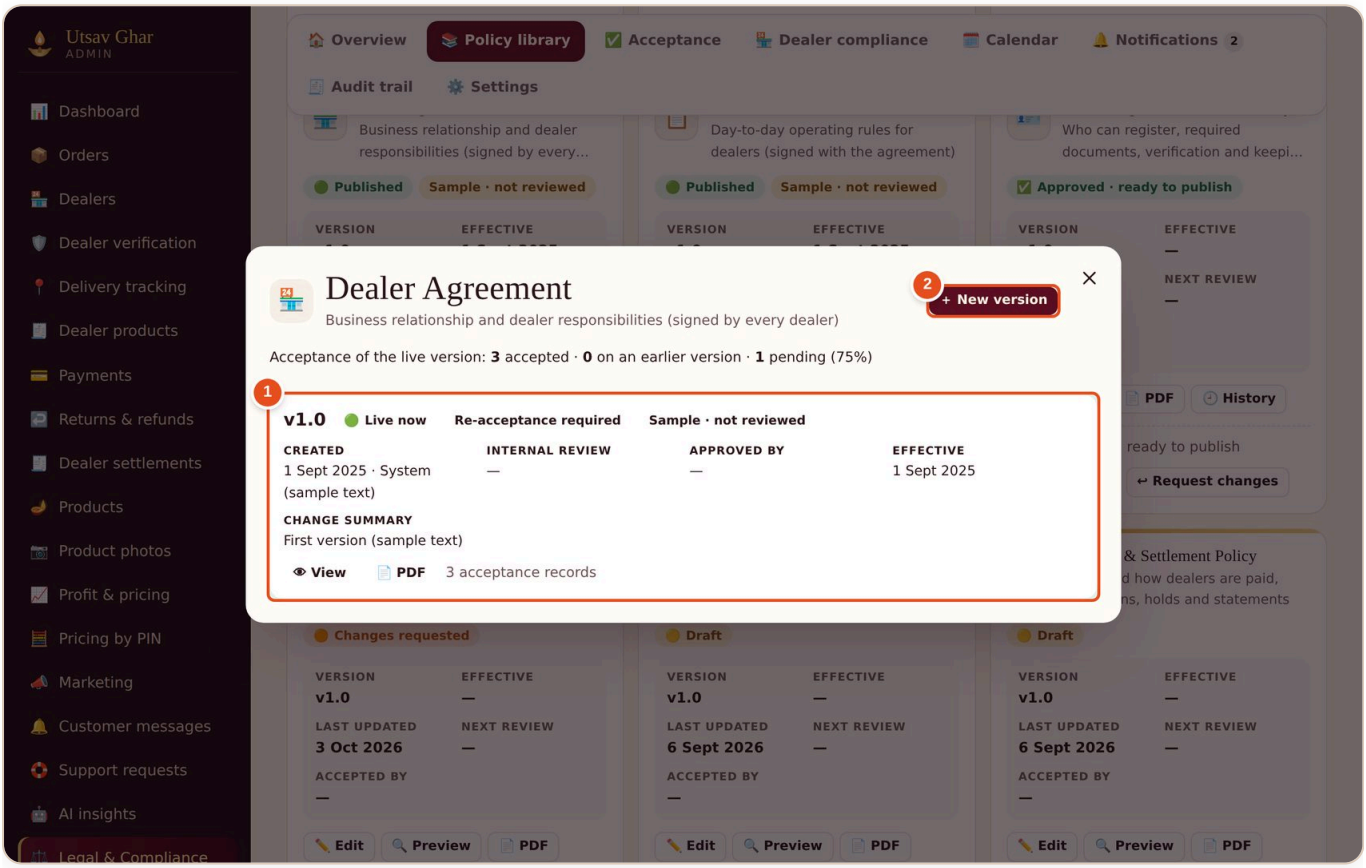

Agreement Version Control

📄 What is this page?

"🕘 History" on any policy.

🎯 Why are we using this page?

Old versions must never be overwritten: each customer and dealer accepted a specific text, and the company must be able to show exactly what was agreed and when.

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. Each version: created, internal review, approved by, effective, change summary, acceptance count
2. + New version — starts a new draft; the live version is never overwritten. "Audit for this policy" appears here once actions are logged

✅ What can I do here?

- ✓ Version
- ✓ Created date and by
- ✓ Approved by (lawyer) and date
- ✓ Effective date
- ✓ Change summary
- ✓ Acceptance count

🔀 Policy version control

1. **Dealer Agreement v1.0** — Published; dealers signed it. Kept for ever.
2. **Dealer Agreement v1.1** — Small change → new version, old one stays on record.
3. **Dealer Agreement v2.0** — Big (important) change → everyone accepts again.

⚠️ Important

- Published and archived versions cannot be edited or deleted. Changes always create a new version.
- A version marked "Important change" makes people accept again before their next order.

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

20

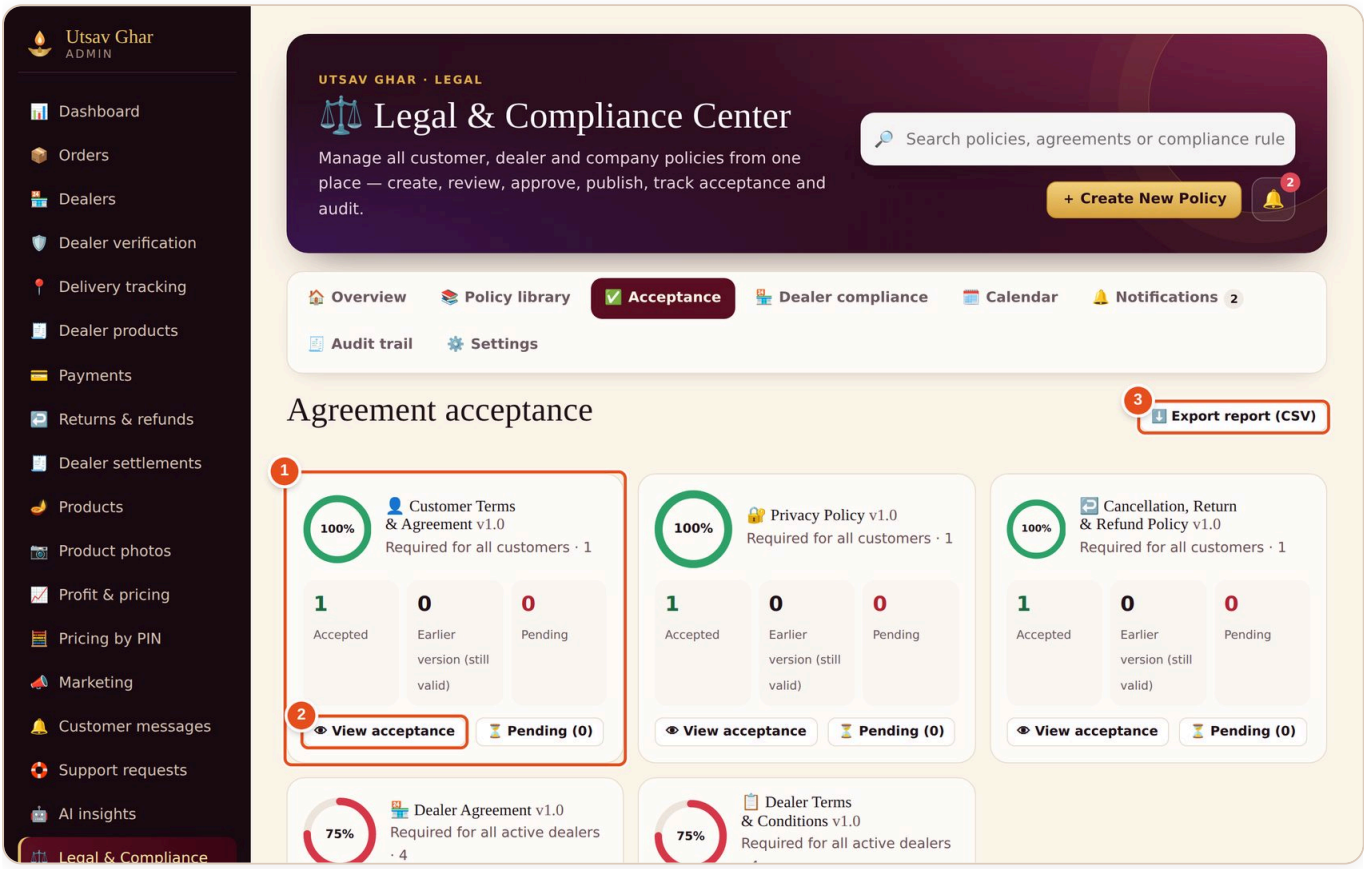

Digital Agreement Records

📄 What is this page?

Legal & Compliance → "✅ Acceptance".

🎯 Why are we using this page?

The company needs to know which agreement version each customer/dealer accepted and when.

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. Per agreement: accepted, earlier version, pending
2. View acceptance / Pending list
3. ⬇️ Export report (CSV)

✅ What can I do here?

- ✓ See accepted / earlier version / pending for each agreement (e.g. Dealer Agreement v2.0 — Accepted 12,450 · Pending 324)
- ✓ Open the people lists
- ✓ Search acceptance records by name, email, mobile or agreement number and open the PDF
- ✓ Export a CSV report

⚠️ Important

- Dealer legal profiles (Dealer compliance) show each dealer's agreement version, signed date, signature method, KYC and documents, with "Download Signed PDF".

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

21

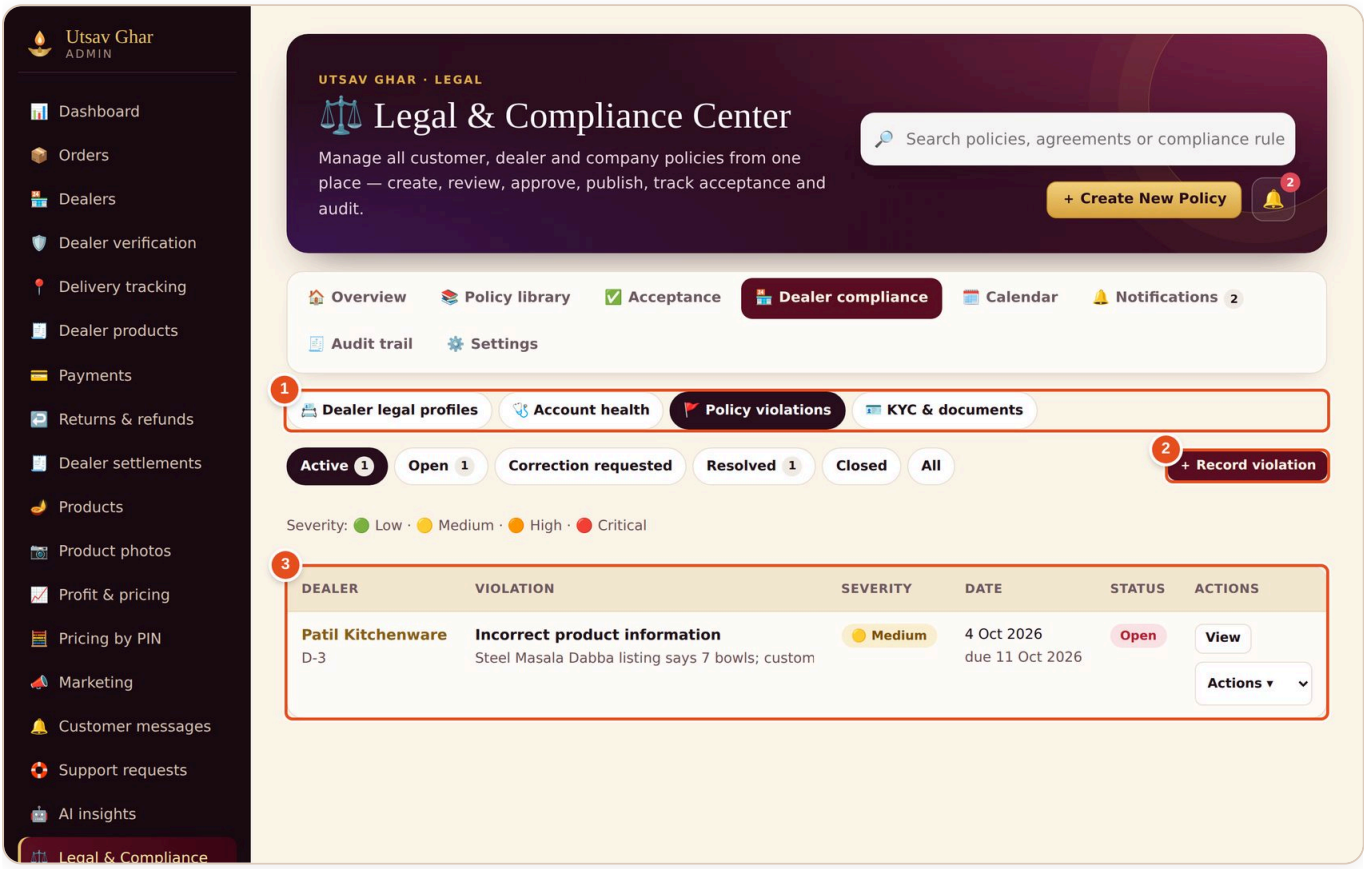

Policy Violations

📄 What is this page?

Dealer compliance → "🚩 Policy violations".

🎯 Why are we using this page?

To record problems fairly, tell the dealer, give a chance to fix them and act when needed — with a full history.

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. Active · Open · Correction requested · Resolved · Closed
2. + Record violation
3. Dealer · Violation · Severity · Date · Status · Actions

🪜 Step-by-step

1. "+ Record violation": dealer, type, severity (🟢 Low, 🟡 Medium, 🟠 High, 🔴 Critical), policy, days to respond, what happened.
2. Use Actions: View, Contact dealer, Request correction, Suspend listing, Suspend dealer, Mark resolved, Close violation.

🏷️ Status meaning

Status	Meaning
Open	Issue recorded; action needed.
Correction requested	Dealer must fix it by the due date.
Resolved	Fixed; no longer counts in account health.
Closed	Finished (resolution recorded).

⚠️ Important

- The dealer is notified in the app and by email/SMS.
- "Suspend listing" hides that product from the store; "Suspend dealer" pauses new orders.

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

22

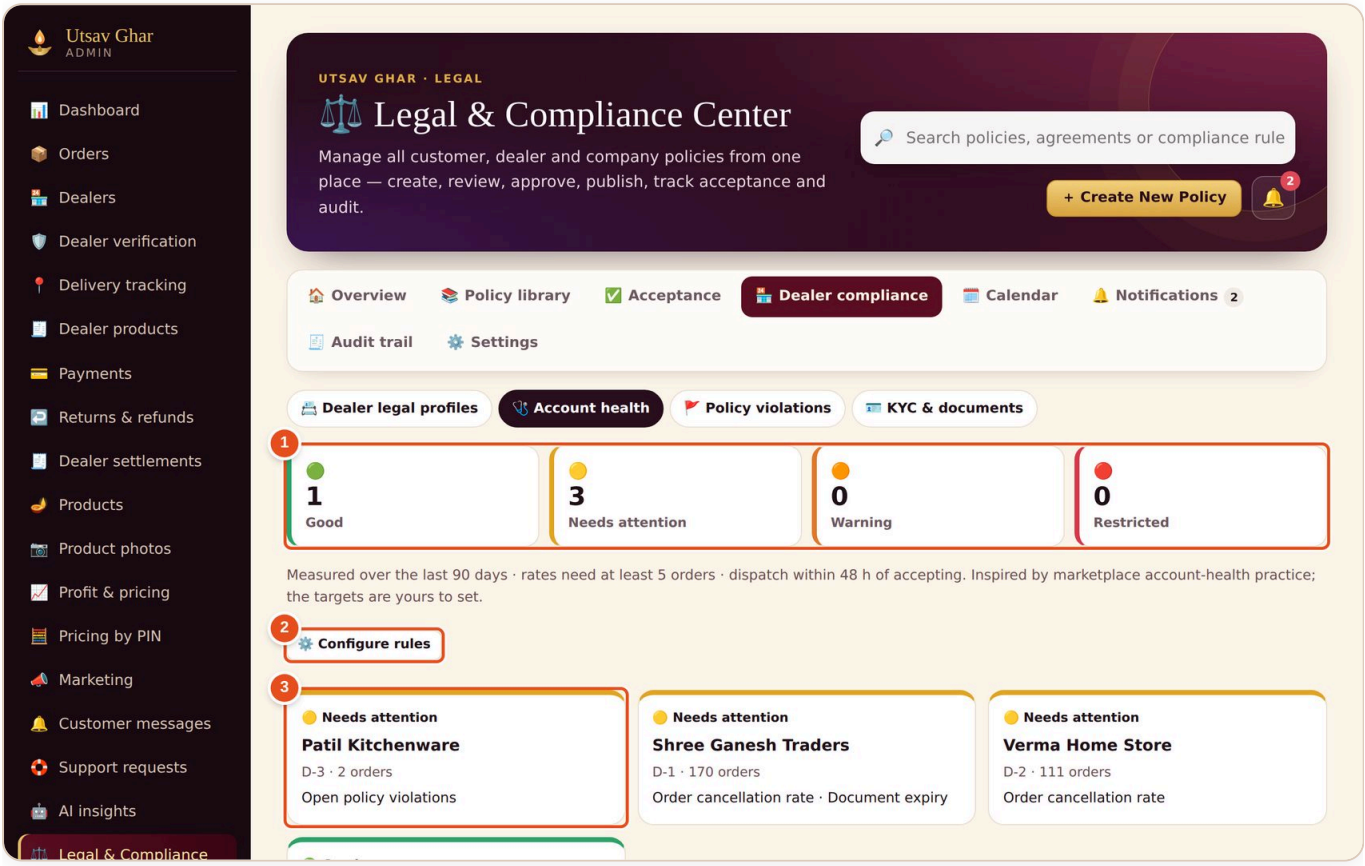

Dealer Account Health

📄 What is this page?

Dealer compliance → "🩺 Account health".

🎯 Why are we using this page?

To spot dealers who need help or action before customers are affected.

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. Dealers by level: Good, Needs attention, Warning, Restricted
2. ⚙️ Configure rules — thresholds, period, minimum orders, dispatch hours
3. Dealer card — tap for measures

✅ What can I do here?

- ✓ Measures: order cancellation rate, late shipment rate, customer complaints, return rate, refund issues, product quality complaints, policy violations, document expiry, fraud indicators
- ✓ Configure thresholds for each level

🏷️ Status meaning

Status	Meaning
🟢 **Good**	All measures within target.
🟡 **Needs attention**	One or more measures are slipping.
🟠 **Warning**	Action needed now.
🔴 **Restricted**	New orders or listings may be paused.

⚠️ Important

- Health is guidance; suspension is always your decision (Violations / Dealer verification).

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

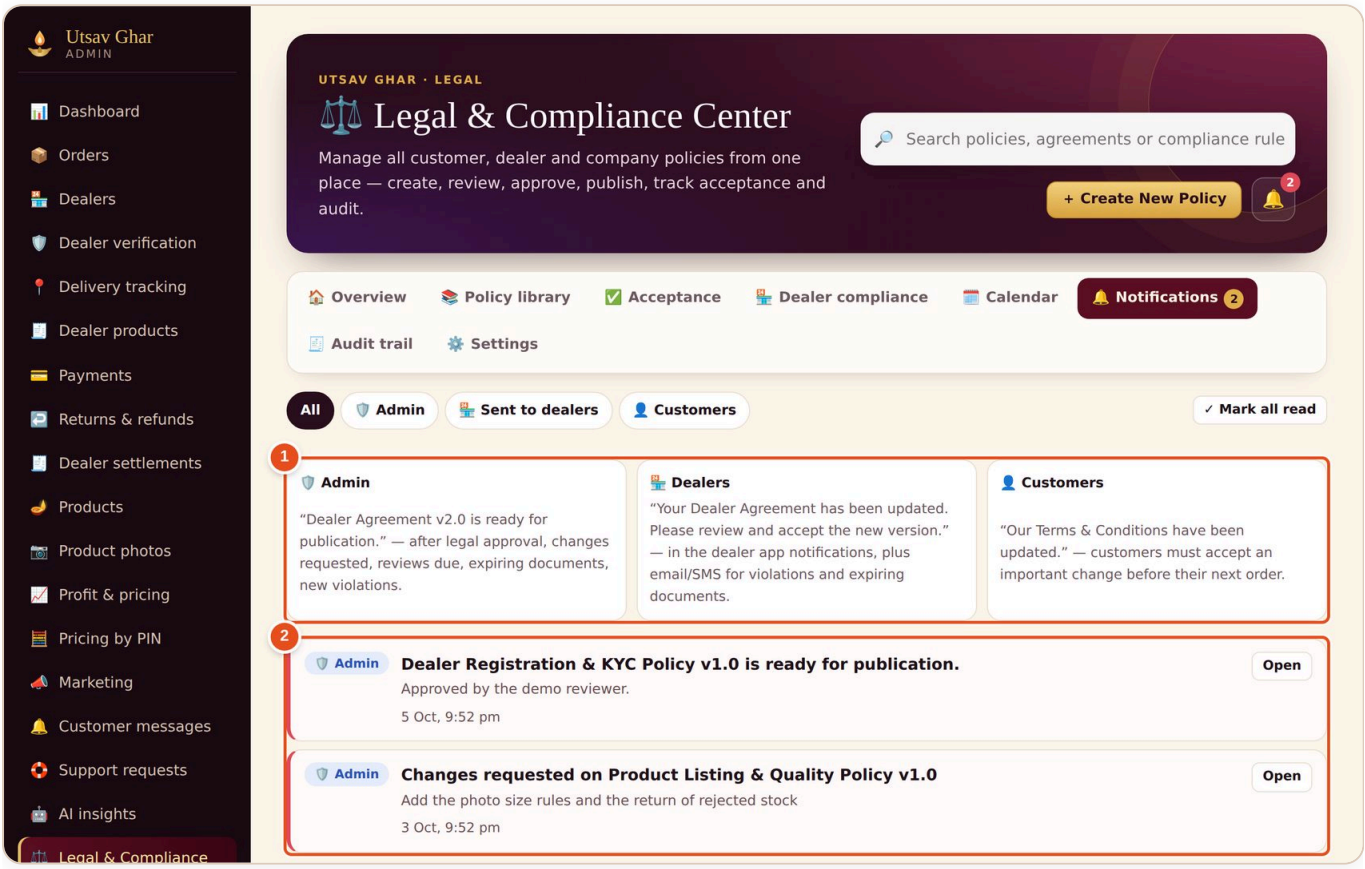

23 Notifications

📄 What is this page?

Legal & Compliance → "🔔 Notifications" (bell icon in the header).

🎯 Why are we using this page?

So nobody misses an approval, a review date, an expiring document or a policy change.

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. Who gets what: Admin, Dealers, Customers
2. Notification list — "Open" jumps to the policy or dealer

✅ What can I do here?

- ✓ Admin: "... is ready for publication", changes requested, review due, documents expiring, violations
- ✓ Dealers: "Your Dealer Agreement has been updated. Please review and accept the new version.", policy issues, expiring documents
- ✓ Customers: "Our Terms & Conditions have been updated..." — they accept before the next order

⚠️ Important

- Order and payment messages to customers are sent automatically by email/WhatsApp when those channels are configured.

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

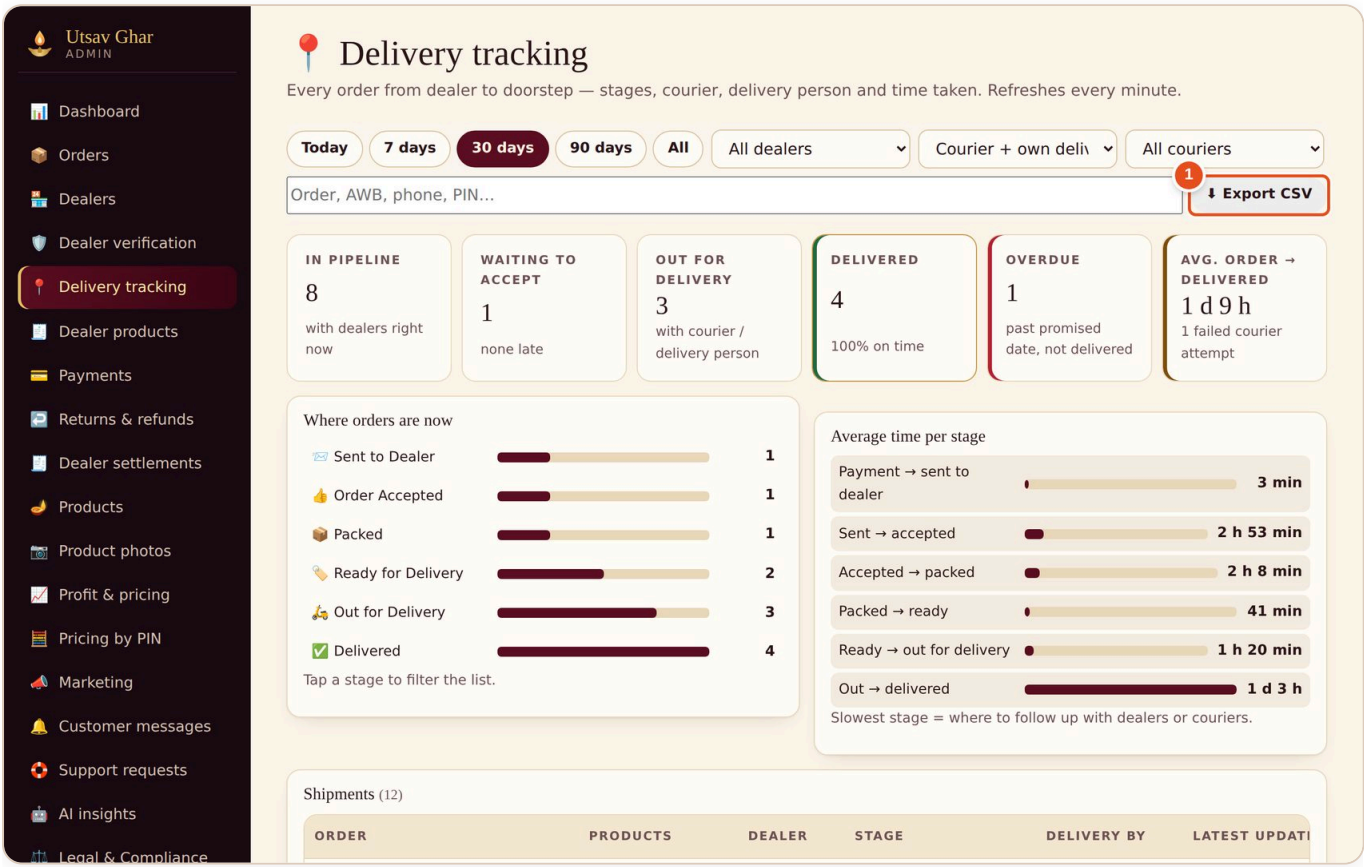

24 Reports

📄 What is this page?

The reports and CSV exports available today.

🎯 Why are we using this page?

To analyse delivery, pricing, marketing and legal acceptance outside the app (Excel/Sheets).

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1 ⬇ Export CSV

Where	What you get
Delivery tracking	Shipments, stages, times — ⬇ Export CSV
Pricing by PIN → All products	Profit by zone — ⬇ Export CSV
Customer messages → Subscribers	Subscriber list — Export CSV (Owner)
Legal & Compliance → Acceptance	Acceptance report — ⬇️ Export report (CSV)
Dashboard, Profit & pricing, Marketing, AI insights	On-screen reports and charts

🛠️ PLANNED FEATURE

- A single Reports page with order, payment, customer, sales and profit exports is a Planned Feature.

This is not available in the app yet. Until it is, use the steps given here.

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

25

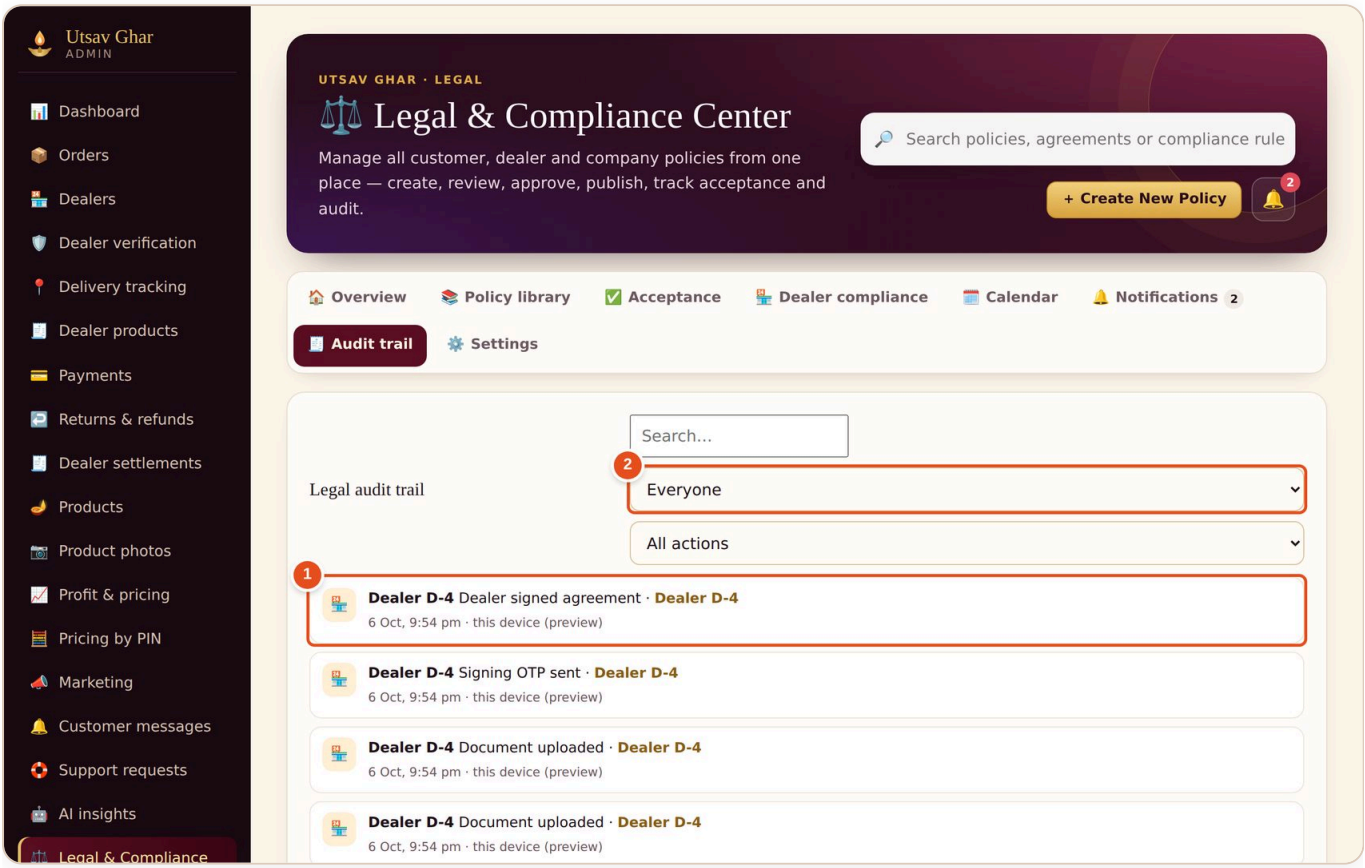

Audit Logs

📄 What is this page?

Legal & Compliance → "🧾 Audit trail" (legal actions) and the "Audit log" page (store admin actions).

🎯 Why are we using this page?

Audit logs provide a history of important system and legal actions. They help the company understand who performed an action and when.

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. Who · what · when — e.g. "Store Owner — Created Dealer Agreement v2.0 — 06 Oct 2026, 10:25 am"
2. Filter by people and action

✅ What can I do here?

- ✓ Legal: created, edited, reviewed, approved, published policies; acceptances and signatures; dealer verification decisions; bank reveals; violations
- ✓ Store: last 300 admin actions (who, action, item)

⚠️ Important

- Audit entries cannot be edited or deleted from the app.

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

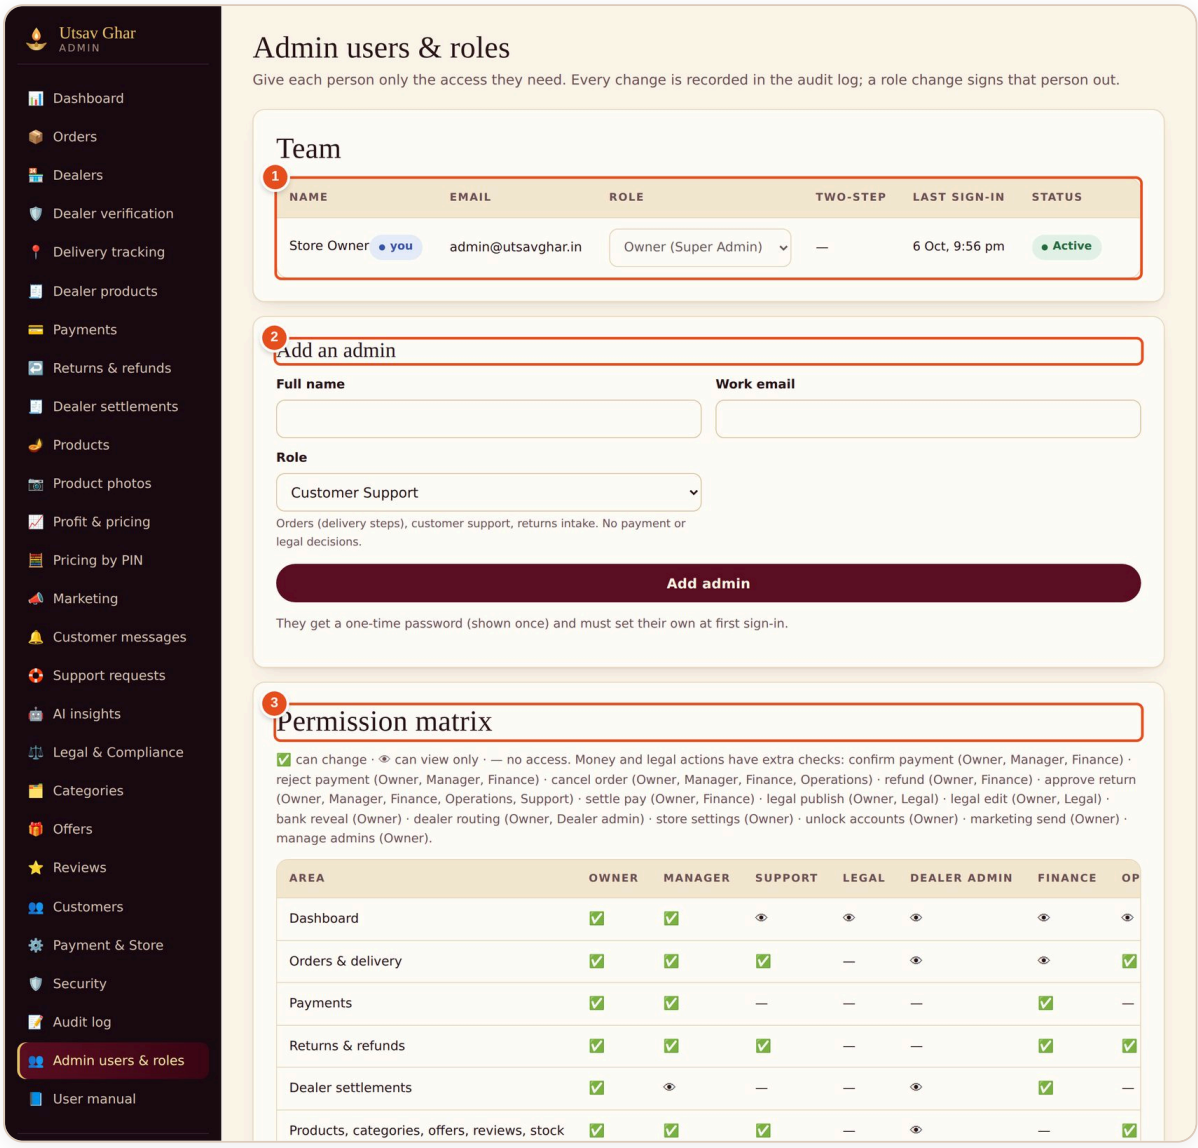

26 User Roles & Permissions

📄 What is this page?

Who can see and change what in the admin panel.

🎯 Why are we using this page?

Giving each person only the access they need protects money, customer data and legal records.

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. Team: name, email, role (change here), two-step, last sign-in, status
2. Add an admin: name, work email, role → one-time password
3. Permission matrix (same map the server enforces)

✅ What can I do here?

- ✓ Owner (Super Admin): Everything, including money, legal publishing, settings, security and admin users.
- ✓ Manager: Daily operations: orders, payments, dealers, verification, products. Views legal and settings.
- ✓ Customer Support: Orders (delivery steps), customer support, returns intake. No payment or legal decisions.
- ✓ Legal Admin: Legal & Compliance Center: policies, review, approval, publishing, violations, acceptance records.
- ✓ Dealer Admin: Dealers, KYC and document verification, dealer products and dealer orders.
- ✓ Finance Admin: Payments, refunds, dealer settlements and financial reports.
- ✓ Operations Admin: Orders, delivery tracking, products, stock and returns handling (no money decisions).
- ✓ Read Only Admin: Can open every page except admin users; cannot change anything.

🪜 Step-by-step

1. Owner: open "👥 Admin users & roles".
2. Under "Add an admin" enter name, work email and role; tap "Add admin".
3. Give the one-time password privately; the person sets their own password at first sign-in.
4. To change a role, pick it in the Team table (that person is signed out). "Disable" removes access; "Reset password" gives a new one-time password.

Area	Owner	Manager	Support	Legal	Dealer admin	Finance	Operations	Read only

✅ can change · 👁️ can view only · — no access. "Action" rows are extra checks for money, legal and admin actions.

⚠️ Important

- The menu shows only the pages a role may open. Even if someone types a link, the server refuses pages and actions their role does not allow.
- Read Only Admin can open every page except Admin users and Security but cannot change anything.
- You cannot change your own role or disable yourself, and there is always at least one active Owner.

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

27

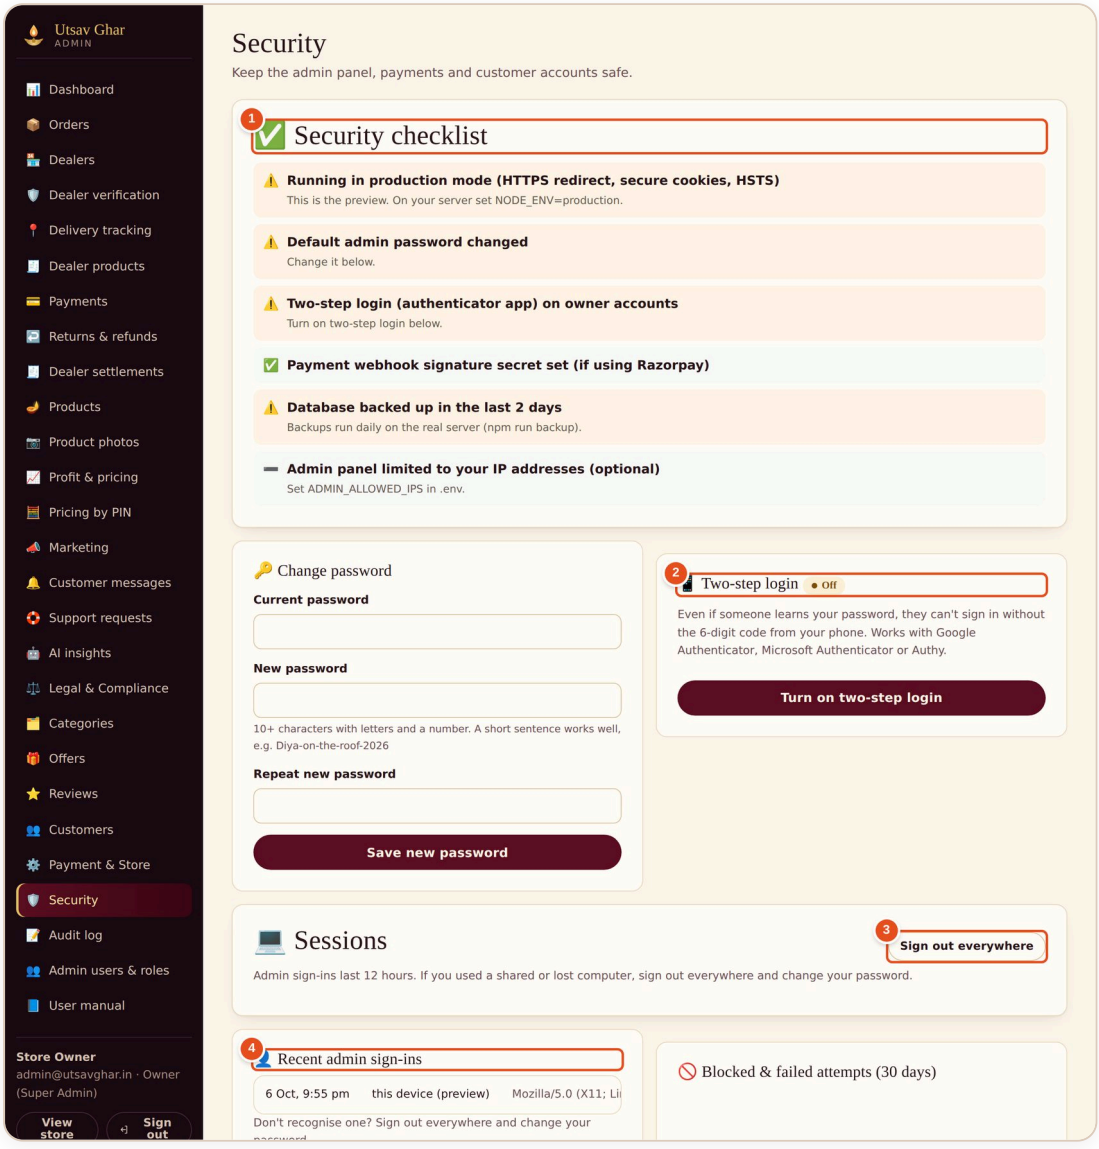

Security

📄 What is this page?

"Security" page.

🎯 Why are we using this page?

To protect the store from account takeover and to see suspicious sign-in attempts.

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. ✅ Security checklist
2. 📱 Two-step login (authenticator app + 10 backup codes)
3. 💻 Sign out everywhere
4. 👤 Recent admin sign-ins. A "🔒 Locked accounts" list with Unlock (Owner) appears here only when an account is locked

🪜 Step-by-step

1. Turn on Two-step login: scan the QR with an authenticator app, enter the 6-digit code, save the 10 backup codes safely.
2. Review "Recent admin sign-ins" and "Blocked & failed attempts".
3. Use "Sign out everywhere" if a device is lost.

> **⚠️ Important**
> - Backup codes are shown only once and each works once.

> **💬 Need help?**
>
> Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

28

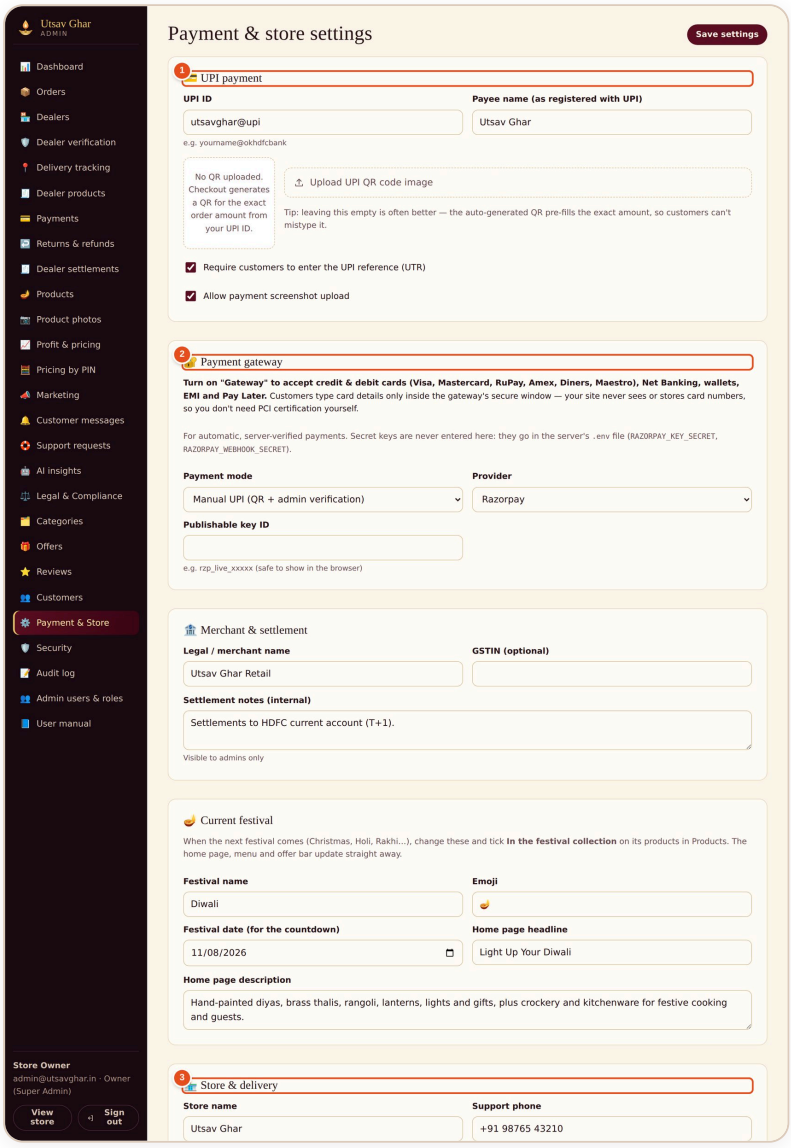

System Settings

📄 What is this page?

"Payment & Store" settings, plus Legal & Compliance → Settings (company details, health rules).

🎯 Why are we using this page?

These settings decide how customers pay, what delivery costs, which festival is featured and what company details appear in legal documents.

📷 Actual screen from the Utsav Ghar website / app (demo data).

🔢 WHAT THE NUMBERS SHOW

1. 💳 UPI payment: UPI ID, payee, QR, require UTR
2. 🔐 Payment gateway
3. 🏪 Store & delivery: contacts, delivery fee, free delivery above

✅ What can I do here?

- ✓ UPI, gateway, merchant & settlement notes
- ✓ Current festival, store contacts, delivery fee and free-delivery limit
- ✓ Selling abroad (international shipping, exchange rates)
- ✓ Shipping zones
- ✓ Guest checkout on/off
- ✓ Company details used in documents (legal name, address, Grievance Officer)

⚠️ Important

- Only the Owner can save these settings.
- Fill Company details before going live — the Consumer Protection (E-Commerce) Rules, 2020 require them.

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

29

Common Problems

Problem	What to do
"Please change the default password first."	Set your own password on the screen shown after sign-in.
"You do not have permission for this action."	Your role is not allowed — ask the Owner (see Roles & Permissions).
"✅ Approve dealer" is grey	Business/KYC incomplete, a required document not verified, agreement not signed, or delivery PIN codes not set.
Paid order not going to any dealer	No dealer covers the PIN/items. Use "Find dealer" or process the order yourself.
Cannot publish a policy	It must pass internal review and have legal approval recorded first.
UPI payment cannot be found	Ask the customer for a screenshot; check the date range of the statement; reject only when sure.
Lost authenticator phone	Sign in with a backup code, then turn two-step login off and on again.
Admin account locked	Wait, or ask the Owner to "Unlock" in Security.

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

30

Frequently Asked Questions

Question	Answer
Can I edit a published policy?	No. Create a new version; the old one stays as a legal record.
Who approves legal documents?	A qualified lawyer reviews them; the Owner records the lawyer's name in "Record legal approval".
Does "Mark Refunded" send money?	No, it only records the refund. Send the money first.
How do dealers get orders automatically?	With auto-routing on, a paid order goes to the best dealer who stocks all items and covers the PIN; it moves on if not accepted in time.
Can dealers see our selling price or profit?	No. Only their dealer price.
How do I add another admin?	Owner: Admin users & roles → Add an admin. Choose the smallest role that fits the job.

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

Support & document information

💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

🗂️ Version history

Version	Date
1.0	October 2026 — First edition

🔄 **Future updates:** When the app gets new features or changes, they will be added to this user manual. Always use the latest version — check the version number and date.

COMPANY	VERSION	DATE	LANGUAGE
Utsav Ghar	**1.0**	**October 2026**	**English**

This manual explains how to use the software. It does not replace or change any agreement or policy. If anything here differs from the published legal documents, the published legal documents apply.
