## AUDIENCE

For Administrators

Screens show demo data. Some features are marked “Planned Feature” — they are not available yet. Legal texts shown are drafts that must be reviewed by a qualified lawyer before production use.

 **Future updates:** When the app gets new features or changes, they will be added to this user manual. Always use the latest version — check the version number and date.

# Table of Contents

Each chapter explains one page: what it is, why it is used, what you can do, step-by-step instructions, what happens next, status meanings, important points, common mistakes and where to get help.

|    |                       |    |    |                                              |    |

## 1 2 3 4 How to read the screenshots

Orange numbered circles on a screen point to a button, field or area. The list next to or below the picture explains each number. A green “” label means the picture is a real screen from the app with demo data. A yellow “Illustrative Screen — Final UI may vary.” label means the screen is a mock-up of a Planned Feature.

# Admin Login

## What is this page?

The "Store admin" sign-in page at /admin.

## Why are we using this page?

The admin panel controls money, customer data and legal records, so only authorised staff may enter.

**Utsav Ghar**  
Store admin

Demo admin: **admin@utsavghar.in** / **ChangeMe@2026** (already filled in).

1. Email  
admin@utsavghar.in

2. Password  
.....

3. Sign in

Enter admin (preview)

4. ← Back to store

Actual screen from the Utsav Ghar website / app (demo data).

### WHAT THE NUMBERS SHOW

- |           |                   |
|-----------|-------------------|
| 1 Email   | 2 Password        |
| 3 Sign in | 4 ← Back to store |

### Step-by-step

- 1 Open /admin (or footer → "🔒 Admin login").
- 2 Enter Email and Password → "Sign in".
- 3 If two-step login is on, enter the 6-digit code from your authenticator app (or a backup code) → "Verify".
- 4 First sign-in: set your own password ("Set your own password to continue").

### **What happens after I submit?**

You see the Dashboard. Sessions last 12 hours.

### **Important**

- Admin passwords: 10+ characters with letters and a number.
- 5 wrong attempts lock sign-in for 15 minutes; more attempts lock longer.
- The admin panel can be limited to allowed networks (IP allow-list).

### **Common mistakes**

-  Sharing one admin login between staff
-  Losing the authenticator phone without saving backup codes

### **Need help?**

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

# Admin Dashboard

## What is this page?

The first admin screen: a summary of the store.

## Why are we using this page?

To see in one minute what needs action today.

Actual screen from the Utsav Ghar website / app (demo data).

## WHAT THE NUMBERS SHOW

- 1 Tiles: total sales, gross profit, today's sales, orders, pending payments, products, low stock, active offers
- 2 Needs attention: payments to verify, orders to ship, reviews, low stock
- 3 Menu of all admin pages

## What can I do here?

- ✓ Total sales, gross profit, today's sales
- ✓ Orders to pack & ship, pending payments
- ✓ Low stock, active offers, reviews to moderate
- ✓ Sales of the last 14 days, recent orders, top products

### **Important**

- Customers, dealers waiting for verification, legal acceptance and policy alerts are on their own pages: Customers, Dealer verification and Legal & Compliance → Overview.

### **PLANNED FEATURE**

- Combined dashboard tiles for total customers, total dealers, pending dealer verification, pending returns, legal acceptance and policy alerts are a Planned Feature.

This is not available in the app yet. Until it is, use the steps given here.

### **Need help?**

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

# Customer Management

## What is this page?

"Customers" — the list of registered accounts.

## Why are we using this page?

To know who your customers are and how much they buy.

**Customers**  
Registered accounts. Guest checkouts appear under Orders.

| NAME         | EMAIL             | MOBILE     | ORDERS | SPENT   | JOINED     |
|--------------|-------------------|------------|--------|---------|------------|
| Priya Sharma | priya@example.com | 9876501234 | 1      | ₹628.20 | 6 Oct 2026 |

Actual screen from the Utsav Ghar website / app (demo data).

## WHAT THE NUMBERS SHOW

1 Name, email, mobile, orders, spent, joined

### Important

- Guest checkouts appear under Orders, not here.
- Customer legal acceptance is in Legal & Compliance → Acceptance.
- Treat customer data as confidential (Privacy Policy).

### PLANNED FEATURE

- Customer search, detail page, export and actions (block, reset password) are Planned Features.

This is not available in the app yet. Until it is, use the steps given here.

### **Need help?**

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

# Dealer Management

## What is this page?

"Dealers" — dealer orders board, dealer list and order routing.

## Why are we using this page?

Admin uses this page to manage the dealer lifecycle in operation: who serves which PIN codes and categories, and how orders are routed. Onboarding and approval happen in Dealer verification.

**Utsav Ghar ADMIN**

**Dealers**

Orders flow from the website to your dealers — they accept, pack and deliver; you see every step.

1 **Dealer orders** **Dealers** Routing

Orders go to one dealer who sells every item in the order and delivers to the customer's PIN code (nearest & highest priority first).

2 **+ Add dealer**

Actual screen from the Utsav Ghar website / app (demo data).

## WHAT THE NUMBERS SHOW

- 1 Tabs: Dealer orders · Dealers · Routing
- 2 + Add dealer
- 3 Edit dealer — PIN codes, categories, active, reset password

## What can I do here?

- ✓ Dealer orders: follow every dealer order; assign paid orders that have no dealer ("Find dealer")
- ✓ Dealers: add a dealer (one-time password shared by WhatsApp), edit PIN codes ("4110", "411001-411050"), "Ships anywhere in India", categories, priority, Active
- ✓ Routing: auto-send paid orders, auto-move when rejected/not accepted, acceptance time (10–1440 min)

## Status meaning

| Status                    | Meaning                                                      |
|---------------------------|--------------------------------------------------------------|
| <b>Draft</b>              | You started but have not finished and signed.                |
| <b>Submitted</b>          | Your details reached our team.                               |
| <b>Documents pending</b>  | We asked for more documents.                                 |
| <b>Under review</b>       | Agreement signed; our team is checking documents.            |
| <b>Documents rejected</b> | One or more documents must be uploaded again (reason shown). |
| <b>Agreement pending</b>  | Please sign the (new) agreement.                             |
| <b>Agreement signed</b>   | Signature recorded.                                          |
| <b>Approved</b>           | You receive orders and can add products.                     |
| <b>Rejected</b>           | Application not approved (reason shown).                     |
| <b>Suspended</b>          | New orders are paused until reinstated.                      |
| <b>Terminated</b>         | The agreement ended; the account is switched off.            |

### Important

- A dealer added here gets a 14-day grace period to finish KYC and sign.
- Approval needs delivery PIN codes to be set here first.

### Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

# Dealer Verification

## What is this page?

" Dealer verification" — the queue of dealers in onboarding.

## Why are we using this page?

A dealer may receive orders only after KYC, documents and the signed agreement are checked and approved.

**Utsav Ghar ADMIN**

- Dashboard
- Orders

## WHAT THE NUMBERS SHOW

- 1 Business details
- 2 KYC & bank (PAN, GSTIN, CIN, bank)
- 3 Show (logged) — owner can reveal the full account number; this is recorded
- 4 Onboarding steps with progress

## Step-by-step

- 1 Compare legal name, PAN and GSTIN with the documents.
- 2 Check the bank holder name matches the business/proprietor.
- 3 Reveal the account number only if needed ("Show (logged)").

## Important

- Bank numbers are encrypted; every reveal is written to the audit log.

### **Need help?**

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

# Document Verification

## What is this page?

The Documents section of the dealer detail page.

## Why are we using this page?

Document verification is necessary to confirm identity, address, tax registration and bank ownership before a dealer can sell.

**Documents** (4 required for this business type)

| DOCUMENT                                                             | STATUS  | FILE              | NO.             | EXPIRY | UPLOADED    |
|----------------------------------------------------------------------|---------|-------------------|-----------------|--------|-------------|

## WHAT THE NUMBERS SHOW

- 1 Document · Status · File · Number/expiry · Uploaded
- 2 ✓ Verify
- 3 × Reject — with a reason the dealer sees
- 4 View / Download

## Step-by-step

- 1 Tap "View" and check the file is clear, current and in the right name.
- 2 Tap "✓ Verify", or "× Reject" with a reason (quick reasons: blurred, name mismatch, expired, wrong document, number mismatch).
- 3 To ask for more documents use Decision → "Request documents".

### What happens after I submit?

Rejecting notifies the dealer and sets status "Documents rejected". When all required documents are verified and the agreement is signed, " Approve dealer" becomes active.

### Status meaning

| Status                    | Meaning                                          |
|---------------------------|--------------------------------------------------|
| Pending                   | Not uploaded yet.                                |
| Uploaded ✓ · Under review | Uploaded; waiting for our team.                  |
| Approved                  | Checked and accepted.                            |
| Rejected                  | Not accepted — read the reason and upload again. |

#### PLANNED FEATURE

- Separate "Reviewer" column and free comments per document are Planned Features (the reviewer is recorded in the audit history).

This is not available in the app yet. Until it is, use the steps given here.

### Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

# Product Management

## What is this page?

"Products" (your catalogue) and "Dealer products" (products dealers sent for review).

## Why are we using this page?

Every product customers see must have correct details, price, cost and photos.

Actual screen from the Utsav Ghar website / app (demo data).

### WHAT THE NUMBERS SHOW

- 1 Dealer products queue: To review, Waiting for dealer, Approved, Rejected

#### Important

- A product that has orders is archived instead of deleted.
- The dealer never sees the customer price, MRP or margin.

#### Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

# Inventory

## What is this page?

Stock is managed per product (Products) and by dealers for their listings.

## Why are we using this page?

Correct stock prevents selling items you cannot deliver.

**Utsav Ghar ADMIN**

## Status meaning

| Status                                       | Meaning                                                 |
|----------------------------------------------|---------------------------------------------------------|
| Order Placed                                 | We have your order.                                     |
| Payment Confirmed                            | Payment received.                                       |
| Processing / Sent to Dealer                  | Your items are being prepared, by us or a local dealer. |
| Order Accepted · Packed · Ready for Delivery | The dealer accepted, packed and handed it over.         |
| Shipped                                      | Given to a courier; tracking number shown.              |
| Out for Delivery                             | Arriving today. Keep the delivery code ready.           |
| Delivered                                    | You received the parcel.                                |
| Cancelled                                    | The order was cancelled; if paid, a refund follows.     |

### Important

- Reject Payment and Cancel Order ask you to tap twice.
- Confirm/Reject Payment: Owner, Manager or Finance. Cancel: Owner, Manager, Finance or Operations. Mark Refunded (cancelled orders): Owner or Finance.
- Every change sends the customer an update and is written to the order history.

### Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

# Payment Management

## What is this page?

"Payments" — the UPI verification queue.

## Why are we using this page?

Manual UPI payments must be matched with the bank statement before the order is processed.

**Payments**  
Match each UTR against your bank or UPI merchant statement before confirming.

1 **All** To verify Not paid yet 3 **Confirmed** Rejected

| ORDER        | CUSTOMER                      | AMOUNT    | METHOD | UTR / REFERENCE | PROOF | STATUS            |

Actual screen from the Utsav Ghar website / app (demo data).

### WHAT THE NUMBERS SHOW

- 1 Tabs: All, To verify, Not paid yet, Confirmed, Rejected
- 2 UTR / reference and payment proof (screenshot link when uploaded)
- 3 Confirm / Reject

### Step-by-step

- 1 Open "To verify".
- 2 Find the UTR and amount in your bank statement.
- 3 Tap "Confirm" if it matches; "Reject" if not.

## Status meaning

| Status                              | Meaning                                                                       |
|-------------------------------------|-------------------------------------------------------------------------------|
| <b>Awaiting Payment</b>             | Order is reserved but no payment has been received yet.                       |
| <b>Payment Verification Pending</b> | You told us you paid by UPI; our team is matching it with the bank statement. |
| <b>Payment Confirmed</b>            | Money received. Your order moves to packing.                                  |
| <b>Payment Rejected</b>             | We could not match the payment. Pay again or contact us with the UTR.         |
| <b>Refunded</b>                     | The money was returned to you after a cancellation.                           |

### Important

- Check the  risk badge before confirming large or unusual orders.
- Payment settings (UPI ID, QR, gateway) are in "Payment & Store" (Owner only).

### Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

# Settlement

## What is this page?

"Dealer settlements": what each dealer is owed for delivered orders, less returns and fees, and the payment batches.

## Why are we using this page?

So every dealer is paid the right amount, once, with a record the dealer can see.

**Utsav Ghar ADMIN**

### Dealer settlements

What each dealer is owed for delivered orders, less returns and fees. Create a batch, pay it from the bank, then record the UTR. An order is never paid twice.

**1 Due now**

| DEALER               | ORDERS | RETURNS | NET DUE | BANK                         |                              |
|----------------------|--------|---------|---------|------------------------------|------------------------------|
| Shree Ganesh Traders | 1      | 0       | ₹607    | State Bank of India ••••4321 | <b>2 Review &amp; create</b> |
| Verma Home Store     | 1      | 0       | ₹495    | No bank on file              | Review & create              |
| Patil Kitchenware    | 1      | 0       | ₹2,587  | HDFC Bank ••••7788           | Review & create              |

**3 Settlement batches**

| NUMBER   | DEALER               | CREATED    | ORDERS | SALES  | RETURNS | FEES | NET    | STATUS                    |
|----------|----------------------|------------|--------|--------|---------|------|--------|---------------------------|
| STL-1001 | Shree Ganesh Traders | 2 Oct 2026 | 1      | ₹1,196 | —₹0     | —₹0  | ₹1,196 | Paid<br>UTR SBIN262784193 |

## WHAT THE NUMBERS SHOW

- 1** Due now: every dealer with delivered orders not yet settled
- 2** Review & create — see every order, return and the net
- 3** Settlement batches with status, net and UTR

## What can I do here?

- ✓ See what is due to each dealer
- ✓ Add adjustments (penalty – / bonus +)
- ✓ Create a settlement batch
- ✓ Mark it paid with the bank UTR
- ✓ Cancel a batch that was not paid

## Step-by-step

- 1 Open "Dealer settlements".
- 2 In "Due now" tap "Review & create" for a dealer.
- 3 Check each order (📦) and return (🔄); add adjustments if needed.
- 4 Tap "Create settlement for ₹..." (status Processing).
- 5 Pay from your bank to the dealer's verified account.
- 6 Open the batch, type the UTR, tap "Mark paid". The dealer is notified.

The screenshot displays the Utsav Ghar Admin dashboard. On the left is a dark sidebar with a menu including Dashboard, Orders, Dealers, Dealer verification (highlighted), Delivery tracking, Dealer products, Payments, Returns & refunds, Dealer settlements, Products, Product photos, Profit & pricing, Pricing by PIN, Marketing, Customer messages, Support requests, AI insights, and Legal & Compliance. The main content area is divided into two panels. The left panel, titled 'Signed agreements', shows two documents: 'Dealer Terms & Conditions v1.0' and 'Dealer Agreement v1.0', both dated 6 Oct, 9:54 pm, with their respective IDs and 'View PDF' and 'Download' links. The right panel, titled 'Commercial terms', contains a form for setting dealer terms. It includes a 'Model' dropdown set to 'Supply model', a description of the pricing model, and input fields for 'Settlement (days after delivery)' (7), 'Return window (days)' (7), 'Late dispatch penalty (₹)' (0), and 'Logistics' (Dealer delivers / book:). A 'Save terms' button is at the bottom. Below these panels is a 'Decision' section with buttons for 'Approve dealer', 'Request documents', 'Request correction', 'Ask to sign again', 'Reject', and 'Terminate', along with a brief approval process note.

 Actual screen from the Utsav Ghar website / app (demo data).

### WHAT THE NUMBERS SHOW

- 1 Commercial terms per dealer: model, commission, fees, settlement days, return window, penalty, logistics

## Dealer settlement

## Status meaning

| Status     | Meaning                                                               |
|------------|-----------------------------------------------------------------------|
| Processing | Finance created the settlement; the bank transfer is being made.      |
| Paid       | Sent to your bank account. The UTR reference and date are shown.      |
| Cancelled  | The batch was cancelled; its orders come back in the next settlement. |

## Important

- Only the Owner and Finance Admin can create or pay settlements; others can view.
- An order or return is never counted in two active batches. Cancelling a batch releases its orders for the next one.
- A batch is never created for zero or a negative net — returns are carried forward.
- Supply model: dealer price × quantity (the snapshot taken when the order was placed).  
Commission model: item value – commission – platform fee – payment fee.
- Changing commercial terms after the dealer signed asks the dealer to sign again; new orders pause until then.

## Common mistakes

- ✗ Marking paid before the bank transfer is done
- ✗ Typing a UTR from another payment (it is refused if already used)

## Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

# Returns

## What is this page?

"Returns & refunds" → Returns: return requests customers send from their order page.

## Why are we using this page?

One place to check, approve and receive returns, put resaleable stock back and open the refund for finance.

**Returns & refunds**  
Approve or reject return requests, mark items received, and record every refund with its reference. A refund can never be more than the amount paid.

**Returns** Refunds

1 New (1) 2 Approved Received Refunded (1) Rejected All

| RETURN                 | ORDER       | CUSTOMER                  | ITEMS                           | REASON                         | REFUND | STATUS                         |
|------------------------|-------------|---------------------------|---------------------------------|--------------------------------|--------|--------------------------------|
| RET-1001<br>6 Oct 2026 | #DIWALI0256 | Sneha Patil<br>9876500017 | 1 x Ceramic Dinner Set (18 pcs) | Item arrived damaged or broken | ₹2,999 | Return requested <b>Decide</b> |

Actual screen from the Utsav Ghar website / app (demo data).

### WHAT THE NUMBERS SHOW

- 1 Filter: New, Approved, Received, Refunded, Rejected, All
- 2 Return number, order, customer, items, reason, photo, refund amount, status
- 3 Decide: approve (refund can be lowered) or reject with a reason

### Step-by-step

- 1 Open Returns & refunds → New.
- 2 Tap "Decide": check items, reason and photo.
- 3 Approve (optionally lower the refund) or reject with a note the customer sees.
- 4 Arrange the pickup; the delivering dealer is told automatically.
- 5 When the item arrives, tap "Mark received" and tick "resaleable" to put it back in stock.
- 6 A refund opens in the Refunds tab for finance.

## Status meaning

| Status                               | Meaning                                                            |
|--------------------------------------|--------------------------------------------------------------------|
| <b>Return requested</b>              | We received your request and reply within 1 working day.           |
| <b>Approved — pickup pending</b>     | Keep the item packed. We arrange the pickup.                       |
| <b>Received — refund in progress</b> | We received the item; the refund is being sent.                    |
| <b>Refunded</b>                      | Money sent back to your original payment method (reference shown). |
| <b>Not accepted</b>                  | The reason is shown. Reply through Help Center if you disagree.    |
| <b>Return cancelled</b>              | The return was cancelled.                                          |

### Important

- The refund amount is calculated from what the customer paid (after discounts) plus delivery for damaged/wrong/missing items. You can lower it, never raise it.
- Returns are accepted within 7 days of delivery (damaged/wrong/missing: 48 hours).
- Owner, Manager, Finance, Operations and Support can decide returns; only Owner and Finance record refunds.

### Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

# Refunds

## What is this page?

"Returns & refunds" → Refunds: every refund owed for cancelled paid orders and received returns.

## Why are we using this page?

So every refund is paid once, never more than the customer paid, and the customer sees the reference.

**Returns & refunds**

Approve or reject return requests, mark items received, and record every refund with its reference. A refund can never be more than the amount paid.

**Refunds**

1 Refund pending  
₹1,299  
1 refunds

Refund failed — retrying  
₹0  
0 refunds

Refunded  
₹314.10  
1 refunds

2 To pay Failed Paid All

| ORDER                       | FOR                                  | AMOUNT                | STATUS         | REFERENCE |
|-----------------------------|--------------------------------------|-----------------------|----------------|-----------|
| #DIWALI10257<br>Kiran Desai | Cancelled order<br>opened 6 Oct 2026 | ₹1,299<br>paid ₹1,299 | Refund pending | —         |

3 Record refund

Actual screen from the Utsav Ghar website / app (demo data).

## WHAT THE NUMBERS SHOW

- 1 Refunds to pay, failed and paid (amounts)
- 2 Order, cancelled order / return, amount, status, reference
- 3 Record refund — reference, method; or mark failed

## Step-by-step

- 1 Open Refunds → "To pay".
- 2 Send the money (gateway refund or UPI/bank transfer).
- 3 Tap "Record refund", type the reference (UTR / refund ID) and method, tap "Mark refunded".
- 4 If the bank returns it, tap "Record refund" → "Mark failed (retry later)" with the reason, then record it again after retrying.

## Status meaning

| Status                          | Meaning                                                                           |
|---------------------------------|-----------------------------------------------------------------------------------|
| <b>Refund pending</b>           | The refund is opened and waiting for our finance team.                            |
| <b>Refunded</b>                 | Sent. The bank reference (UTR / refund ID) is shown.                              |
| <b>Refund failed — retrying</b> | The bank returned it (e.g. account closed). Our team retries and may contact you. |

### Important

- Recording a refund does not send money by itself — send it first.
- A refund cannot be marked paid twice, a reference can be used once, and refunds can never add up to more than the order total.
- When everything paid is refunded, the order payment shows "Refunded"; partial refunds keep "Payment Confirmed" with the refund listed.
- Cancelling a paid order opens a full refund automatically (also when a customer cancels).

### PLANNED FEATURE

- Sending gateway refunds directly from the admin (instead of recording them) is a Planned Feature.

This is not available in the app yet. Until it is, use the steps given here.

### Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

# Customer Support

## What is this page?

"Support requests" (page title "Customer support").

## Why are we using this page?

To answer customer requests quickly and keep a record of every conversation.

Actual screen from the Utsav Ghar website / app (demo data).

### WHAT THE NUMBERS SHOW

- 1 Open, waiting for customer, resolved, satisfaction
- 2 Search name, phone, order, HELP...
- 3 Filter and ticket list — each ticket shows status and priority

### Step-by-step

- 1 Filter "Needs attention".
- 2 Open a ticket; set priority (Normal/High/Urgent).
- 3 Use a quick reply or write one; choose what happens after sending (wait for customer / keep working / mark resolved).
- 4 Tap "Send reply".

## Status meaning

| Status                 | Meaning                                  |
|------------------------|------------------------------------------|
| Open                   | We received your request.                |
| We are working on it   | Someone from our team is handling it.    |
| Waiting for your reply | We asked you something — please reply.   |
| Resolved               | Solved. Rate us with 1–5 stars.          |
| Closed                 | Finished. Raise a new request if needed. |

### PLANNED FEATURE

- Assigning tickets to a team member is a Planned Feature.

This is not available in the app yet. Until it is, use the steps given here.

### Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

# Dealer Support

## What is this page?

How the team supports dealers today.

## Why are we using this page?

Dealers contact the team by phone, WhatsApp or email.

## What can I do here?

- ✓ Reset a dealer password (Dealers → Edit → Reset password)
- ✓ Change PIN codes, categories or active status
- ✓ Message a dealer about a policy issue (Legal & Compliance → Dealer compliance → Violations → Contact dealer)
- ✓ Ask to re-sign, request documents or corrections (Dealer verification → Decision)

## PLANNED FEATURE

- A dealer support-ticket queue is a Planned Feature.

This is not available in the app yet. Until it is, use the steps given here.

## Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

# Legal & Policies — Legal & Compliance Center

## What is this page?

"Legal & Compliance" — the central legal control center.

## Why are we using this page?

Admin uses it to create, review, approve, publish, update and track all legal policies and agreements, and to watch dealer compliance.

**UTSAV GHAR · LEGAL**

## Legal & Compliance Center

Manage all customer, dealer and company policies from one place — create, review, approve, publish, track acceptance and audit.

Search policies, agreements or compliance rule

|  <b>Expired</b>            | Still live, but its review date has passed. |
|  <b>Archived</b>           | Retired; kept as a legal record.            |

### Important

- PDF management: every version has View PDF / Download PDF / Print. Policy PDFs include logo, company name, document name, version, effective date, full content, page numbers, footer, reference number and approval information. Signed dealer agreements also include dealer name and ID, signature, date/time, version and digital acceptance details (OTP, IP, device, fingerprint).
- Do not change the meaning of legally approved text when writing the simple explanation.

### Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

# Agreement Version Control

## What is this page?

"History" on any policy.

## Why are we using this page?

Old versions must never be overwritten: each customer and dealer accepted a specific text, and the company must be able to show exactly what was agreed and when.

**Dealer Agreement**  
Business relationship and dealer responsibilities (signed by every dealer)

Acceptance of the live version: **3** accepted · **0** on an earlier version · **1** pending (75%)

| VERSION                           | EFFECTIVE   | Re-acceptance required | Sample · not reviewed |
|-----------------------------------|-------------|------------------------|-----------------------|
| <b>v1.0</b> <span>Live now</span> | 1 Sept 2025 | —                      | —                     |

**CREATED**  
1 Sept 2025 · System (sample text)

**INTERNAL REVIEW**  
—

**APPROVED BY**  
—

**EFFECTIVE**  
1 Sept 2025

**CHANGE SUMMARY**  
First version (sample text)

[View](#) [PDF](#) 3 acceptance records

Actual screen from the Utsav Ghar website / app (demo data).

## WHAT THE NUMBERS SHOW

**1** Each version: created, internal review, approved by, effective, change summary, acceptance count

**2** + New version — starts a new draft; the live version is never overwritten. "Audit for this policy" appears here once actions are logged

## What can I do here?

- ✓ Version
- ✓ Created date and by
- ✓ Approved by (lawyer) and date
- ✓ Effective date
- ✓ Change summary
- ✓ Acceptance count

## Policy version control

1

### Dealer Agreement v1.0

Published; dealers signed it. Kept for ever.

2

### Dealer Agreement v1.1

→ Small change → new version, old one stays on record.

3

### Dealer Agreement v2.0

→ Big (important) change → everyone accepts again.

## Important

- Published and archived versions cannot be edited or deleted. Changes always create a new version.
- A version marked "Important change" makes people accept again before their next order.

## Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

# Digital Agreement Records

## What is this page?

Legal & Compliance → "✅ Acceptance".

## Why are we using this page?

The company needs to know which agreement version each customer/dealer accepted and when.

Actual screen from the Utsav Ghar website / app (demo data).

## WHAT THE NUMBERS SHOW

- 1 Per agreement: accepted, earlier version, pending
- 2 View acceptance / Pending list
- 3 Export report (CSV)

## ✅ What can I do here?

- ✓ See accepted / earlier version / pending for each agreement (e.g. Dealer Agreement v2.0 — Accepted 12,450 · Pending 324)
- ✓ Open the people lists
- ✓ Search acceptance records by name, email, mobile or agreement number and open the PDF
- ✓ Export a CSV report

### **Important**

- Dealer legal profiles (Dealer compliance) show each dealer's agreement version, signed date, signature method, KYC and documents, with "Download Signed PDF".

### **Need help?**

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

# Policy Violations

## What is this page?

Dealer compliance → "Policy violations".

## Why are we using this page?

To record problems fairly, tell the dealer, give a chance to fix them and act when needed — with a full history.

The screenshot shows the Utsav Ghar Admin interface. On the left is a sidebar with various menu items. The main content area is titled 'Legal & Compliance Center' and includes a search bar, a '+ Create New Policy' button, and a navigation bar with tabs like Overview, Policy library, Acceptance, Dealer compliance, Calendar, and Notifications. Below this is a sub-navigation bar with 'Dealer legal profiles', 'Account health', 'Policy violations' (selected), and 'KYC & documents'. A filter bar shows 'Active' (1), 'Open' (1), 'Correction requested', 'Resolved' (1), 'Closed', and 'All'. A severity filter shows 'Low', 'Medium', 'High', and 'Critical'. A table lists violations, with one example: Patil Kitchenware D-3, Incorrect product information, Medium severity, dated 4 Oct 2026, status Open. An 'Actions' dropdown is visible for this entry. A '+ Record violation' button is in the top right corner.

Actual screen from the Utsav Ghar website / app (demo data).

### WHAT THE NUMBERS SHOW

1 Active · Open · Correction requested · Resolved · Closed      2 + Record violation

3 Dealer · Violation · Severity · Date · Status · Actions

### Step-by-step

- 1 "+ Record violation": dealer, type, severity (● Low, ● Medium, ● High, ● Critical), policy, days to respond, what happened.
- 2 Use Actions: View, Contact dealer, Request correction, Suspend listing, Suspend dealer, Mark resolved, Close violation.

## Status meaning

| Status               | Meaning                                    |
|----------------------|--------------------------------------------|
| Open                 | Issue recorded; action needed.             |
| Correction requested | Dealer must fix it by the due date.        |
| Resolved             | Fixed; no longer counts in account health. |
| Closed               | Finished (resolution recorded).            |

### Important

- The dealer is notified in the app and by email/SMS.
- "Suspend listing" hides that product from the store; "Suspend dealer" pauses new orders.

### Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

# Dealer Account Health

## What is this page?

Dealer compliance → "Account health".

## Why are we using this page?

To spot dealers who need help or action before customers are affected.

Actual screen from the Utsav Ghar website / app (demo data).

## WHAT THE NUMBERS SHOW

- 1 Dealers by level: Good, Needs attention, Warning, Restricted
- 2 Configure rules — thresholds, period, minimum orders, dispatch hours
- 3 Dealer card — tap for measures

## What can I do here?

- ✓ Measures: order cancellation rate, late shipment rate, customer complaints, return rate, refund issues, product quality complaints, policy violations, document expiry, fraud indicators
- ✓ Configure thresholds for each level

## Status meaning

| Status                                                                                                   | Meaning                               |
|----------------------------------------------------------------------------------------------------------|---------------------------------------|
|  <b>Good</b>            | All measures within target.           |
|  <b>Needs attention</b> | One or more measures are slipping.    |
|  <b>Warning</b>         | Action needed now.                    |
|  <b>Restricted</b>      | New orders or listings may be paused. |

### **Important**

- Health is guidance; suspension is always your decision (Violations / Dealer verification).

### **Need help?**

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

# Notifications

## What is this page?

Legal & Compliance → "🔔 Notifications"  
(bell icon in the header).

## Why are we using this page?

So nobody misses an approval, a review date, an expiring document or a policy change.

**UTSAV GHAR · LEGAL**

### Legal & Compliance Center

Manage all customer, dealer and company policies from one place — create, review, approve, publish, track acceptance and audit.

Search policies, agreements or compliance rule

[+ Create New Policy](#) 🔔 2

Overview Policy library Acceptance Dealer compliance Calendar **Notifications 2**

Audit trail Settings

All Admin Sent to dealers Customers ✓ Mark all read

**1**

**Admin**

"Dealer Agreement v2.0 is ready for publication." — after legal approval, changes requested, reviews due, expiring documents, new violations.

**Dealers**

"Your Dealer Agreement has been updated. Please review and accept the new version." — in the dealer app notifications, plus email/SMS for violations and expiring documents.

**Customers**

"Our Terms & Conditions have been updated." — customers must accept an important change before their next order.

**2**

**Admin Dealer Registration & KYC Policy v1.0 is ready for publication.** Open

Approved by the demo reviewer.  
5 Oct, 9:52 pm

**Admin Changes requested on Product Listing & Quality Policy v1.0** Open

Add the photo size rules and the return of rejected stock  
3 Oct, 9:52 pm

Actual screen from the Utsav Ghar website / app (demo data).

## WHAT THE NUMBERS SHOW

**1** Who gets what: Admin, Dealers, Customers

**2** Notification list — "Open" jumps to the policy or dealer

## What can I do here?

- ✓ Admin: "... is ready for publication", changes requested, review due, documents expiring, violations
- ✓ Dealers: "Your Dealer Agreement has been updated. Please review and accept the new version.", policy issues, expiring documents
- ✓ Customers: "Our Terms & Conditions have been updated..." — they accept before the next order

 **Important**

- Order and payment messages to customers are sent automatically by email/WhatsApp when those channels are configured.

 **Need help?**

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

# Reports

## What is this page?

The reports and CSV exports available today.

## Why are we using this page?

To analyse delivery, pricing, marketing and legal acceptance outside the app (Excel/Sheets).

Actual screen from the Utsav Ghar website / app (demo data).

## WHAT THE NUMBERS SHOW

### 1 Export CSV

| Where                                                          | What you get                                   |
|----------------------------------------------------------------|------------------------------------------------|

| <b>Dashboard, Profit &amp; pricing, Marketing, AI insights</b> | On-screen reports and charts                   |

#### PLANNED FEATURE

- A single Reports page with order, payment, customer, sales and profit exports is a Planned Feature.

This is not available in the app yet. Until it is, use the steps given here.

#### Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

# Audit Logs

## What is this page?

Legal & Compliance → "Audit trail" (legal actions) and the "Audit log" page (store admin actions).

## Why are we using this page?

Audit logs provide a history of important system and legal actions. They help the company understand who performed an action and when.

The screenshot displays the 'Legal & Compliance Center' interface. The left sidebar lists various admin functions. The main content area is titled 'Legal audit trail' and includes a search bar and filter dropdowns. A list of audit actions is shown, with the first action highlighted by a red box and labeled with a red circle '1'. A red box around the filter dropdowns is labeled with a red circle '2'.

Actual screen from the Utsav Ghar website / app (demo data).

## WHAT THE NUMBERS SHOW

- 1 Who · what · when — e.g. "Store Owner — Created Dealer Agreement v2.0 — 06 Oct 2026, 10:25 am"
- 2 Filter by people and action

## What can I do here?

- ✓ Legal: created, edited, reviewed, approved, published policies; acceptances and signatures; dealer verification decisions; bank reveals; violations
- ✓ Store: last 300 admin actions (who, action, item)

## Important

- Audit entries cannot be edited or deleted from the app.

### **Need help?**

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

# User Roles & Permissions

## What is this page?

Who can see and change what in the admin panel.

## Why are we using this page?

Giving each person only the access they need protects money, customer data and legal records.

**Admin users & roles**

Give each person only the access they need. Every change is recorded in the audit log; a role change signs that person out.

**Team**

| NAME        | EMAIL              | ROLE                | TWO-STEP | LAST SIGN-IN   | STATUS |
|-------------|--------------------|---------------------|----------|----------------|--------|
| Store Owner | admin@utsavghar.in | Owner (Super Admin) | —        | 6 Oct, 9:56 pm | Active |

**Add an admin**

Full name:

Work email:

Role:

Orders (delivery steps), customer support, returns intake. No payment or legal decisions.

**Add admin**

They get a one-time password (shown once) and must set their own at first sign-in.

**Permission matrix**

✓ can change · 👁 can view only · — no access. Money and legal actions have extra checks: confirm payment (Owner, Manager, Finance) · reject payment (Owner, Manager, Finance) · cancel order (Owner, Manager, Finance, Operations) · refund (Owner, Finance) · approve return (Owner, Manager, Finance, Operations, Support) · settle pay (Owner, Finance) · legal publish (Owner, Legal) · legal edit (Owner, Legal) · bank reveal (Owner) · dealer routing (Owner, Dealer admin) · store settings (Owner) · unlock accounts (Owner) · marketing send (Owner) · manage admins (Owner).

| Products, categories, offers, reviews, stock | ✓     | ✓       | ✓       | —     | 👁            | —       | ✓  |

Actual screen from the Utsav Ghar website / app (demo data).

## WHAT THE NUMBERS SHOW

- 1 Team: name, email, role (change here), two-step, last sign-in, status
- 2 Add an admin: name, work email, role → one-time password
- 3 Permission matrix (same map the server enforces)

## ✓ What can I do here?

- ✓ Owner (Super Admin): Everything, including money, legal publishing, settings, security and admin users.
- ✓ Manager: Daily operations: orders, payments, dealers, verification, products. Views legal and settings.
- ✓ Customer Support: Orders (delivery steps), customer support, returns intake. No payment or legal decisions.
- ✓ Legal Admin: Legal & Compliance Center: policies, review, approval, publishing, violations, acceptance records.
- ✓ Dealer Admin: Dealers, KYC and document verification, dealer products and dealer orders.
- ✓ Finance Admin: Payments, refunds, dealer settlements and financial reports.
- ✓ Operations Admin: Orders, delivery tracking, products, stock and returns handling (no money decisions).
- ✓ Read Only Admin: Can open every page except admin users; cannot change anything.

## 📋 Step-by-step

- 1 Owner: open "👤 Admin users & roles".
- 2 Under "Add an admin" enter name, work email and role; tap "Add admin".
- 3 Give the one-time password privately; the person sets their own password at first sign-in.
- 4 To change a role, pick it in the Team table (that person is signed out). "Disable" removes access; "Reset password" gives a new one-time password.

| Area                                         | Owner | Manager | Support | Legal | Dealer admin | Finance | Operations | Read only |

✓ can change · 👁 can view only · — no access. "Action" rows are extra checks for money, legal and admin actions.

### ⚠ Important

- The menu shows only the pages a role may open. Even if someone types a link, the server refuses pages and actions their role does not allow.
- Read Only Admin can open every page except Admin users and Security but cannot change anything.
- You cannot change your own role or disable yourself, and there is always at least one active Owner.

### 💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

# Security

## What is this page?

"Security" page.

## Why are we using this page?

To protect the store from account takeover and to see suspicious sign-in attempts.

**Utsav Ghar ADMIN**

**Security**  
Keep the admin panel, payments and customer accounts safe.

**1** **Security checklist**

- Running in production mode (HTTPS redirect, secure cookies, HSTS)**  
This is the preview. On your server set `NODE_ENV=production`.
- Default admin password changed**  
Change it below.
- Two-step login (authenticator app) on owner accounts**  
Turn on two-step login below.
- Payment webhook signature secret set (if using Razorpay)**
- Database backed up in the last 2 days**  
Backups run daily on the real server (npm run backup).
- Admin panel limited to your IP addresses (optional)**  
Set `ADMIN_ALLOWED_IPS` in `.env`.

**Change password**

**Current password**

**New password**  
10+ characters with letters and a number. A short sentence works well, e.g. `Diya-on-the-roof-2026`

**Repeat new password**

**Save new password**

**2** **Two-step login** on

Even if someone learns your password, they can't sign in without the 6-digit code from your phone. Works with Google Authenticator, Microsoft Authenticator or Authy.

**Turn on two-step login**

**3** **Sessions** **Sign out everywhere**

Admin sign-ins last 12 hours. If you used a shared or lost computer, sign out everywhere and change your password.

**4** **Recent admin sign-ins**

| Date  | Time    | Device                | Browser              |
|-------|---------|-----------------------|----------------------|
| 6 Oct | 9:55 pm | this device (preview) | Mozilla/5.0 (X11; Li |

Don't recognise one? Sign out everywhere and change your password.

**Blocked & failed attempts (30 days)**

Actual screen from the Utsav Ghar website / app (demo data).

## WHAT THE NUMBERS SHOW

- 1** **Security checklist**
- 2** **Two-step login (authenticator app + 10 backup codes)**
- 3** **Sign out everywhere**
- 4** **Recent admin sign-ins. A "Locked accounts" list with Unlock (Owner) appears here only when an account is locked**

## Step-by-step

- 1 Turn on Two-step login: scan the QR with an authenticator app, enter the 6-digit code, save the 10 backup codes safely.
- 2 Review "Recent admin sign-ins" and "Blocked & failed attempts".
- 3 Use "Sign out everywhere" if a device is lost.

### Important

- Backup codes are shown only once and each works once.

### Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

# System Settings

## What is this page?

"Payment & Store" settings, plus Legal & Compliance → Settings (company details, health rules).

## Why are we using this page?

These settings decide how customers pay, what delivery costs, which festival is featured and what company details appear in legal documents.

**Payment & store settings** Save settings

**1 UPI payment**

UPI ID:   
e.g. yourname@okhdfcbank

Payee name (as registered with UPI):

No QR uploaded. Checkout generates a QR for the exact order amount from your UPI ID.

Upload UPI QR code image

Tip: leaving this empty is often better — the auto-generated QR pre-fills the exact amount, so customers can't mistype it.

☒ Require customers to enter the UPI reference (UTR)

☒ Allow payment screenshot upload

**2 Payment gateway**

Turn on "Gateway" to accept credit & debit cards (Visa, Mastercard, RuPay, Amex, Diners, Maestro), Net Banking, wallets, EMI and Pay Later. Customers type card details only inside the gateway's secure window — your site never sees or stores card numbers, so you don't need PCI certification yourself.

For automatic, server-verified payments. Secret keys are never entered here: they go in the server's .env file (RAZORPAY\_KEY\_SECRET, RAZORPAY\_MERCHANT\_SECRET).

Payment mode:  Provider:

Publishable key ID:   
e.g. rzp\_live\_xxxxxx (safe to show in the browser)

**3 Merchant & settlement**

Legal / merchant name:  GSTIN (optional):

Settlement notes (internal):   
Visible to admins only

**4 Current festival**

When the next festival comes (Christmas, Holi, Rakhi...), change these and tick **In the festival collection** on its products in Products. The home page, menu and offer bar update straight away.

Festival name:  Emoji:

Festival date (for the countdown):  Home page headline:

Home page description:

**5 Store & delivery**

Store name:  Support phone:

Actual screen from the Utsav Ghar website / app (demo data).

## WHAT THE NUMBERS SHOW

**1** UPI payment: UPI ID, payee, QR, require UTR

**2** Payment gateway

**3** Store & delivery: contacts, delivery fee, free delivery above

### ✓ What can I do here?

- ✓ UPI, gateway, merchant & settlement notes
- ✓ Current festival, store contacts, delivery fee and free-delivery limit
- ✓ Selling abroad (international shipping, exchange rates)
- ✓ Shipping zones
- ✓ Guest checkout on/off
- ✓ Company details used in documents (legal name, address, Grievance Officer)

### ⚠ Important

- Only the Owner can save these settings.
- Fill Company details before going live — the Consumer Protection (E-Commerce) Rules, 2020 require them.

### 💬 Need help?

Ask the store owner (Owner role). For technical problems, check Security → checklist and the Audit log, then contact your developer with the order number, time and a screenshot.

## Common Problems

| Problem                                                                                                           | What to do                                                                                                      |
|-------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------|
| <b>"Please change the default password first."</b>                                                                | Set your own password on the screen shown after sign-in.                                                        |
| <b>"You do not have permission for this action."</b>                                                              | Your role is not allowed — ask the Owner (see Roles & Permissions).                                             |
| <b>" Approve dealer" is grey</b> | Business/KYC incomplete, a required document not verified, agreement not signed, or delivery PIN codes not set. |
| <b>Paid order not going to any dealer</b>                                                                         | No dealer covers the PIN/items. Use "Find dealer" or process the order yourself.                                |
| <b>Cannot publish a policy</b>                                                                                    | It must pass internal review and have legal approval recorded first.                                            |
| <b>UPI payment cannot be found</b>                                                                                | Ask the customer for a screenshot; check the date range of the statement; reject only when sure.                |
| <b>Lost authenticator phone</b>                                                                                   | Sign in with a backup code, then turn two-step login off and on again.                                          |
| <b>Admin account locked</b>                                                                                       | Wait, or ask the Owner to "Unlock" in Security.                                                                 |

## Frequently Asked Questions

| Question                                            | Answer                                                                                                                                   |
|-----------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Can I edit a published policy?</b>               | No. Create a new version; the old one stays as a legal record.                                                                           |
| <b>Who approves legal documents?</b>                | A qualified lawyer reviews them; the Owner records the lawyer's name in "Record legal approval".                                         |
| <b>Does "Mark Refunded" send money?</b>             | No, it only records the refund. Send the money first.                                                                                    |
| <b>How do dealers get orders automatically?</b>     | With auto-routing on, a paid order goes to the best dealer who stocks all items and covers the PIN; it moves on if not accepted in time. |
| <b>Can dealers see our selling price or profit?</b> | No. Only their dealer price.                                                                                                             |
| <b>How do I add another admin?</b>                  | Owner: Admin users & roles → Add an admin. Choose the smallest role that fits the job.                                                   |
